

# NECK SIZING DIES - REDDING NECK SIZING DIE 6.5 PRC

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

## Attributes

- Name: [REDDING NECK SIZING DIE 6.5 PRC](#)
- Manufacturer: [REDDING](#)
- Product no.: 749018640

# Safety Instruction Guide for Redding Neck Sizing Die 6.5 PRC

## Introduction

Thank you for choosing the Redding Neck Sizing Die 6.5 PRC. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your product. Please read this document carefully before using the die to understand potential hazards and how to avoid them.

## General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling and using reloading dies.
- Keep the work area clean and welllit to prevent accidents.
- Ensure that all tools and equipment used in conjunction with the die are in good working condition.
- Read and understand the instructions provided with other reloading equipment used alongside the neck sizing die.
- Store the die in a safe place, out of reach of children and pets.
- Do not modify the die or use it for any purpose other than intended.

## Specific Safety Precautions for Use

- Only use the Redding Neck Sizing Die with compatible brass cases and firearms as specified by the manufacturer.
- Do not interchange fired cases between different rifles, as neck sizing does not adjust the shoulder or body of the case.
- Inspect the die regularly for any signs of wear or damage. Replace any damaged components immediately.
- Follow the manufacturer's recommendations for the proper use and maintenance of the die.
- Be aware of the potential for sharp edges on the die. Handle with care to avoid cuts or injuries.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the reloading press is securely mounted and stable.
- Insert the neck sizing die into the reloading press according to the manufacturer's instructions.
- Adjust the die to the appropriate height for your specific reloading setup.

### 2. Usage:

- Begin by preparing your brass cases by cleaning and inspecting them for any defects.
- Place the brass case into the shell holder of the reloading press.
- Operate the press to size the neck of the brass case according to the die's specifications.
- After sizing, remove the case and inspect it to ensure it has been sized correctly.
- Repeat the process for all cases being resized, ensuring to follow the same steps for consistency.

## Disposal Instructions

- Dispose of any brass cases and materials in accordance with local regulations.
- Do not dispose of the die in regular household waste. Instead, contact local authorities for proper disposal methods for metal products.
- If the die is damaged beyond repair, return it to the manufacturer for proper disposal.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the Redding Neck Sizing Die 6.5 PRC, please refer to the manufacturer's contact information provided with your product packaging.

## **Conclusion**

By following these safety instructions and guidelines, you can ensure a safe and efficient reloading experience with your Redding Neck Sizing Die 6.5 PRC. Always prioritize safety and do not hesitate to reach out for support if needed. Thank you for your attention to these important safety measures.
