

# BRASS CASE GAGES - L.E. WILSON 6/6.5X47MM LAPUA BRASS CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

An upgrade to the L.E. Winlson standard steel line. Brass has good corrosion resistance and an excellent surface finish, perfect for gaging your cases. One piece gage that will check overall length to indicate the need for trimming, datum to head length to assure correct headspace and to prevent over sizing. Available for most popular rimless cases. The Cartridge Case Gage was designed with safety in mind and was invented by our founder Sam (L.E.) Wilson in 1935 after a fellow shooter approached him for help in solving a case-separation issue. The gage allows you to see just how much you are sizing back your shoulder on your cases.

## Attributes

- Name: [L.E. WILSON 6/6.5X47MM LAPUA BRASS CASE GAGE](#)
- Manufacturer: [L.E. WILSON](#)

# Safety Instruction Guide for BRASS CASE GAGES L.E. WILSON 6/6.5X47MM LAPUA BRASS CASE GAGE

## Introduction

Thank you for choosing the BRASS CASE GAGES L.E. WILSON 6/6.5X47MM LAPUA BRASS CASE GAGE. This product is designed to help you gauge your brass cases accurately while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is to gauge brass cases for the 6 x 47 Lapua and 6.5 x 47 mm Lapua cartridges.
- Always handle the gage with care to avoid any potential injuries.
- Keep the gage out of reach of children and vulnerable individuals to prevent misuse.
- Regularly inspect the gage for any signs of damage or wear before use. Do not use if damaged.
- If you experience any issues with the gage, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- Always wear appropriate eye protection when using the gage to prevent injury from any debris.
- Ensure that the workspace is clean and free from any obstructions to avoid accidents.
- Do not exceed the manufacturer's specifications for case dimensions to prevent oversizing and potential safety hazards.
- Avoid using the gage in wet or damp conditions to prevent corrosion and ensure accurate measurements.
- Keep your hands clean and dry when handling the gage to maintain a good grip and prevent slipping.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure you have a clean, dry workspace.
- Gather your brass cases and the gage.

### 2. Using the Gage:

- Insert the brass case into the gage.
- Check the overall length of the case to determine if trimming is necessary.
- Measure the datum to head length to confirm correct headspace.
- Observe the shoulder of the case to see how much it is being sized back.

### 3. PostUsage:

- After use, clean the gage with a soft cloth to remove any debris or residue.
- Store the gage in a dry place to prevent corrosion.

## Disposal Instructions

- Dispose of any damaged or unusable gages in accordance with local regulations.
- If the gage is beyond repair, consider recycling the brass material if possible.

## **Contact Information for Further Support**

For any questions or concerns regarding the BRASS CASE GAGES L.E. WILSON 6/6.5X47MM LAPUA BRASS CASE GAGE, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your BRASS CASE GAGES L.E. WILSON 6/6.5X47MM LAPUA BRASS CASE GAGE. Thank you for your attention to safety!
