

CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 6.5MM PRC BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6.5MM PRC BULLET SEATING DIE

Safety Instruction Guide

Introduction

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6.5MM PRC BULLET SEATING DIE. This product is designed for precision bullet seating, particularly favored by benchrest shooters. To ensure safe and effective use, please read the following safety instructions carefully.

General Safety Guidelines

- Ensure proper handling and storage of all reloading equipment to avoid accidents.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when operating reloading tools.
- Keep the workspace clean and organized to prevent accidental injury.
- Follow all local laws and regulations regarding ammunition reloading and usage.
- Store all components, including dies and ammunition, in a secure location away from children and unauthorized users.
- Regularly inspect your equipment for any signs of wear or damage before use.

Specific Safety Precautions for Use

- Always ensure the die is properly secured in the reloading press before use.
- Do not exceed the recommended load specifications for the 6.5 PRC cartridge.
- Avoid distractions while reloading to maintain focus and precision.
- Use the die only for its intended purpose as specified in the product description.
- Do not attempt to modify or alter the die in any way.
- Ensure that the case and bullet are properly aligned before seating to prevent misfires or damage.
- Keep your hands and other body parts clear of the die during operation.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is clean and free of debris.
- Insert the bullet seating die into the reloading press and tighten it securely.
- Adjust the seating stem to the desired depth according to your specific bullet and cartridge specifications.

2. Usage:

- Place a cartridge case into the shell holder of the reloading press.
- Insert a bullet into the case mouth, ensuring it is properly aligned.
- Pull the handle of the reloading press to push the bullet into the case. The die will capture the bullet and case for precise alignment.
- Check the overall cartridge length after seating to ensure it meets your specifications.
- Repeat the process for additional cartridges, maintaining focus and safety throughout.

Disposal Instructions

- Dispose of any damaged or unusable reloading components in accordance with local regulations.
- Do not dispose of ammunition or components in regular household waste. Consult your local waste management authority for proper disposal methods.

Contact Information for Further Support

For any questions regarding the use or safety of the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6.5MM PRC BULLET SEATING DIE, please refer to the manufacturer's resources or your local retailer for assistance.

Conclusion

Adhering to these safety guidelines will help ensure a safe and effective reloading experience. Always prioritize safety and compliance with regulations to enjoy the benefits of your reloading tools responsibly. Thank you for your attention to these important safety instructions.
