

# CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 22 NOSLER BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

# Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 22 NOSLER BULLET SEATING DIE

## Introduction

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 22 NOSLER BULLET SEATING DIE. This product is designed for precision bullet seating, particularly favored by benchrest shooters. To ensure safe and effective use, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Ensure that you are familiar with the operation of this product before use.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the bullet seating die out of reach of children and unauthorized users.
- Regularly inspect the die for wear and damage before each use.
- Follow all local laws and regulations regarding ammunition reloading and safety.

## Specific Safety Precautions for Use

- Use only the specified cartridge, which is the 22 Nosler, with this die to avoid potential hazards.
- Ensure that the die is securely mounted in a stable reloading press to prevent accidents.
- Avoid overtightening the die, which can lead to damage or malfunction.
- Keep your work area clean and free of clutter to minimize the risk of accidents.
- Do not attempt to modify or alter the die in any way, as this can compromise safety and performance.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your reloading press is turned off and unplugged (if applicable).
- Carefully remove the die from its packaging.
- Insert the bullet seater die into the reloading press and tighten securely.
- Adjust the seating depth according to your specifications.

### 2. Usage:

- Place the cartridge case into the shell holder of the reloading press.
- Insert the bullet into the case mouth.
- Using the closefitting seating stem, push the bullet straight into the case until it reaches the desired depth.
- Inspect the seated bullet for proper alignment and depth.
- Once completed, remove the cartridge from the press and check for any defects.

## Disposal Instructions

- Dispose of any defective or damaged dies in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, contact your local waste management facility for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding safety or performance, please contact the manufacturer or authorized dealers. Ensure that you have your product information ready when seeking assistance.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience with the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 22 NOSLER BULLET SEATING DIE. Always prioritize safety and remain informed about best practices in reloading. Thank you for your attention to these guidelines.
