

# CHAMBER TYPE BULLET SEATER DIES - 33 NOSLER BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

## Attributes

# Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES 33 NOSLER BULLET SEATING DIE

## Introduction

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES 33 NOSLER BULLET SEATING DIE by L.E. WILSON. This product is designed for precision bullet seating, especially favored by benchrest shooters. To ensure your safety and the effective use of this product, please read and follow the safety instructions carefully.

## General Safety Guidelines

- Always handle this product with care to avoid personal injury or damage to the equipment.
- Ensure that you are familiar with the basic principles of reloading and bullet seating.
- Use this product only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for any signs of wear or damage before use.
- If you encounter any issues or have concerns about the product, seek assistance before proceeding to use it.

## Specific Safety Precautions for Use

- **Personal Protective Equipment (PPE):** Always wear safety glasses and gloves when handling reloading equipment to protect against potential injuries.
- **Work Environment:** Use this product in a wellventilated area free of clutter and distractions.
- **Avoid Distractions:** Focus on the task at hand and avoid using the product when fatigued or under the influence of substances.
- **Proper Alignment:** Ensure that the bullet and cartridge case are properly aligned before seating to avoid misfires or damage.
- **Seating Pressure:** Do not apply excessive force when using the seating stem, as this can damage the bullet or the die.

## Instructions for Installation and Usage

### 1. Setup:

- Secure the die in your reloading press according to the manufacturer's instructions.
- Ensure that the die is clean and free from any debris before installation.

### 2. Loading the Cartridge:

- Insert the cartridge case into the die, ensuring it is seated correctly.
- Place the bullet on top of the cartridge case, aligning it properly.

### 3. Seating the Bullet:

- Gently lower the seating stem until it contacts the bullet.
- Apply steady and consistent pressure to seat the bullet into the cartridge case.
- Check the overall length of the cartridge after seating to ensure it meets your specifications.

### 4. PostUse:

- After completing your reloading session, clean the die to remove any residue.
- Store the die in a safe and dry location, away from children.

## Disposal Instructions

- Dispose of any damaged or unusable components in accordance with local regulations.
- Do not dispose of this product in household waste. Instead, contact your local waste management facility for proper disposal methods.

## Contact Information for Further Support

For any inquiries or concerns regarding the CHAMBER TYPE BULLET SEATER DIES 33 NOSLER BULLET SEATING DIE, please reach out to your local distributor or contact the manufacturer directly. Ensure that you have the product details at hand for efficient assistance.

By adhering to these safety guidelines, you can ensure a safe and effective experience with your CHAMBER TYPE BULLET SEATER DIES 33 NOSLER BULLET SEATING DIE. Thank you for your attention to safety, and happy reloading!
