

CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 300 PRC BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

Attributes

Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 300 PRC BULLET SEATING DIE

Introduction

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 300 PRC BULLET SEATING DIE. This product is designed for precision bullet seating and is favored by benchrest shooters. To ensure your safety and the safe use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Always wear appropriate safety gear, including eye protection, when using this product.
- Do not modify the product in any way, as this may compromise safety and performance.
- Follow all local laws and regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- Before using the bullet seater, familiarize yourself with all components and their functions.
- Ensure that the chamber type bullet seater is securely mounted to your reloading press.
- Always check that the die is clean and free from debris before use.
- Use only compatible cartridges and bullets as specified by the manufacturer.
- Avoid overtightening the seating stem, as this may lead to improper bullet seating.
- Do not attempt to seat bullets in a case that has not been fully resized.
- Handle all components with care to avoid injury.

Instructions for Installation and Usage

1. Installation

- Ensure that your reloading press is turned off and unplugged.
- Carefully remove the bullet seater die from its packaging.
- Install the die into the reloading press by screwing it into the appropriate die holder until it is securely in place.
- Adjust the die height according to the manufacturer's specifications for optimal performance.

2. Usage

- Prepare your cartridge cases by resizing and cleaning them as necessary.
- Insert the bullet into the case mouth, ensuring proper alignment.
- Use the seating stem to gently push the bullet into the case, ensuring that it is seated to the desired depth.
- Regularly check the bullet seating depth with a caliper to ensure accuracy.
- Once completed, remove the cartridge from the press and inspect it for proper bullet seating.

Disposal Instructions

- Dispose of any unused or damaged products in accordance with local waste disposal regulations.
- Do not dispose of the product in regular household waste. Instead, contact your local waste management

facility for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the safety or performance of the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 300 PRC BULLET SEATING DIE, please reach out to the manufacturer or a qualified professional. Ensure you have the product details at hand for efficient assistance.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with your CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 300 PRC BULLET SEATING DIE. Always prioritize safety and compliance with local regulations to enjoy the full benefits of your product. Thank you for your attention to these guidelines.
