

# CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 6MM BRA BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

## Attributes

- Name: [L.E. WILSON 6MM BRA BULLET SEATING DIE](#)

# Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6MM BRA

## Introduction

Thank you for choosing the L.E. Wilson Chamber Type Bullet Seater Die. This guide provides essential safety instructions and guidelines to ensure safe and effective use of this product. Please read this document carefully before using the die to avoid any potential hazards.

## General Safety Guidelines

- Ensure the product is used only for its intended purpose as described in this guide.
- Always handle the die and associated tools with care to prevent accidents.
- Keep the die and all components out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage before use.
- Store the die in a safe and dry location when not in use.
- Report any unsafe products or incidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate safety glasses when using the bullet seater die to protect your eyes from debris.
- Ensure that your work area is clean and free of any obstructions before beginning.
- Do not exceed the recommended bullet and cartridge specifications outlined in the product data.
- Use the die only with compatible cartridges as specified: 6mm BRA.
- Avoid using excessive force when seating bullets to prevent damage to the die or cartridge.
- Do not modify the die or use it in any manner not described in the instructions.
- Keep fingers and hands clear of moving parts during operation.
- If you experience any issues during use, cease operation immediately and consult the troubleshooting section of your manual.

## Instructions for Installation and Usage

### 1. Installation of the Die:

- Ensure that your reloading press is compatible with 7/8 inch to 14 dies.
- Securely mount the bullet seater die in the press according to the manufacturer's instructions.
- Adjust the seating stem to the desired depth for your specific bullet.

### 2. Using the Bullet Seater Die:

- Begin by preparing your cartridge case and bullet.
- Insert the cartridge case into the die, ensuring it is seated properly.
- Place the bullet into the case mouth, ensuring it is aligned with the die.
- Slowly lower the seating stem to push the bullet into the case. Ensure that the bullet is seated straight and at the desired depth.
- Inspect the completed cartridge for proper seating and alignment before proceeding to the next one.

### 3. PostUse Care:

- Clean the die after each use to remove any debris or residue.
- Store the die in a protective case or container to prevent damage.

## Disposal Instructions

- Dispose of any unused or damaged components according to local regulations.
- Do not dispose of the die in regular household waste. Instead, contact your local waste management facility for proper disposal methods.

## Contact Information for Further Support

For any questions or concerns about the product, please reach out to the EUbased contact for safety inquiries provided by the manufacturer. Always refer to the official website or documentation for the most accurate and uptodate information.

By following these safety guidelines and instructions, you can ensure a safe and efficient reloading experience with the L.E. Wilson Chamber Type Bullet Seater Die. Thank you for your attention to safety and compliance with the EU General Product Safety Regulation.
