

CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 6MM BRX BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

Attributes

- Name: [L.E. WILSON 6MM BRX BULLET SEATING DIE](#)

Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6MM BRX BULLET SEATING DIE

Introduction

Thank you for choosing the L.E. Wilson 6mm BRX Chamber Type Bullet Seater Die. This product is designed for precision bullet seating and is favored by benchrest shooters for its accuracy. However, it is important to use this product safely and responsibly. This guide provides essential safety instructions and guidelines to ensure your safety and the proper use of this product.

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the product is used in accordance with the manufacturer's guidelines.
- Keep this product out of reach of children and vulnerable individuals.
- Regularly check for any updates or recalls related to this product on the EU Safety Gate platform.
- Report any unsafe products or accidents to relevant authorities.

Specific Safety Precautions for Use

- **Personal Protective Equipment (PPE):** Always wear safety glasses and appropriate clothing to protect against debris and potential hazards during use.
- **Work Area:** Ensure your work area is clean, welllit, and free from distractions. Avoid using the product in damp or wet conditions.
- **Tool Condition:** Inspect the bullet seater die for any signs of damage or wear before each use. Do not use if damaged.
- **Handling Components:** Handle all components, including bullets and cartridge cases, with care. Avoid using damaged or defective components.
- **Alignment:** Ensure proper alignment of the bullet and cartridge case during the seating process to prevent misfires or accidents.
- **Storage:** Store the die in a secure location, away from children and pets, and ensure it is kept dry and clean.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is securely mounted and stable.
- Insert the L.E. Wilson 6mm BRX Chamber Type Bullet Seater Die into the press according to the manufacturer's instructions.
- Adjust the die to the desired seating depth as specified in your reloading data.

2. Usage:

- Place a clean, prepared cartridge case into the die.
- Insert the bullet into the case mouth, ensuring it is properly aligned.
- Use the closefitting seating stem to push the bullet straight into the case. Ensure that the bullet is seated to the desired depth without excessive force.
- After seating, check the cartridge for proper alignment and depth.
- Repeat the process for additional cartridges, maintaining the same precautions for each.

Disposal Instructions

- Dispose of any defective or unusable components in accordance with local regulations.
- Do not throw the bullet seater die or its components in regular household waste. Check with local recycling programs for proper disposal methods.
- Ensure that any hazardous materials are disposed of safely and responsibly.

Contact Information for Further Support

For any questions or concerns regarding the use of this product, please refer to the manufacturer's website or contact their customer service for additional support. Ensure you have the product details at hand for more efficient assistance.

By following these safety instructions, you can ensure a safe and effective experience with your L.E. Wilson Chamber Type Bullet Seater Die. Thank you for your attention to safety.
