

WILSON CASE GAGE - L.E. WILSON 6MM BRA CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper headspace, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder.
SPECIAL ORDER CASE GAGES ARE AVAILABLE---MEASURE CASE LENGTH ONLY

Attributes

- Name: [L.E. WILSON 6MM BRA CASE GAGE](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749018854
- Mfr. No.: CG-6BRA
- Cartridge: 6mm BR-A
- Delivery weight: 0.091kg
- Shipping height: 38mm
- Shipping width: 38mm
- Shipping length: 89mm
- UPC: 815145027351

Safety Instruction Guide for WILSON CASE GAGE

L.E. WILSON 6MM BRA CASE GAGE

Introduction

Thank you for choosing the WILSON CASE GAGE L.E. WILSON 6MM BRA CASE GAGE. This guide provides important safety instructions to ensure the safe and effective use of this product. It is essential to follow these guidelines to minimize risks and enhance your experience.

General Safety Guidelines

- Ensure safe use of the WILSON CASE GAGE by following all instructions.
- Be aware of potential hazards associated with improper use or handling of the product.
- Regularly check for updates or recalls concerning this product on the EU Safety Gate platform.
- If you encounter any unsafe products or accidents, report them to the appropriate authorities.
- Remember that vulnerable groups, such as children, should be kept away from this product.

Specific Safety Precautions for Use

- Always use the gage in a welllit and clean workspace to avoid accidents.
- Handle the gage carefully to prevent damage or injury.
- Do not use the gage for purposes other than its intended use as a cartridge case gage.
- Ensure that your hands are dry and clean when handling the gage.
- Regularly inspect the gage for any signs of wear or damage before use.
- If the gage is damaged, do not use it and consult with a professional for repairs or replacement.

Instructions for Installation and Usage

1. Setting Up the Gage:

- Ensure that the gage is clean and free from debris.
- Place the gage on a flat, stable surface.

2. Measuring Case Length:

- Insert the cartridge case into the gage.
- Use a caliper to measure the headspace of the fired cases accurately.
- Check the overall length to determine if trimming is necessary.

3. Adjusting for Belted Magnums:

- For belted magnums, ensure that resizing is held to a minimum at the shoulder to prolong the life of the case.
- Regularly check the case length and headspace to prevent oversizing.

4. PostUse Care:

- After use, clean the gage to remove any residue.
- Store the gage in a safe place, away from moisture and direct sunlight.

Disposal Instructions

- Dispose of the product in accordance with local regulations.

- Do not dispose of the gage in regular household waste.
- If the gage is no longer usable, consider recycling materials where possible.

Contact Information for Further Support

For any inquiries or concerns regarding the WILSON CASE GAGE L.E. WILSON 6MM BRA CASE GAGE, please refer to the product packaging for contact information. It is important to have access to support for any safety or operational questions.

Thank you for following these safety instructions. Your safety is our priority, and we hope you enjoy using the WILSON CASE GAGE L.E. WILSON 6MM BRA CASE GAGE responsibly and effectively.
