

WILSON CASE GAGE - L.E. WILSON 6MM BRX CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper headspace, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder. SPECIAL ORDER CASE GAGES ARE AVAILABLE---MEASURE CASE LENGTH ONLY

Attributes

- Name: [L.E. WILSON 6MM BRX CASE GAGE](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749018855
- Mfr. No.: CG-6BRX
- Cartridge: 6 mm BRX
- Delivery weight: 0.091kg
- Shipping height: 38mm
- Shipping width: 38mm
- Shipping length: 89mm
- UPC: 815145027368

WILSON CASE GAGE L.E. WILSON 6MM BRX CASE GAGE Safety Instructions

Introduction

Thank you for choosing the WILSON CASE GAGE L.E. WILSON 6MM BRX CASE GAGE. This guide provides important safety information, usage instructions, and general guidelines to ensure the safe and effective use of this product. Please read this document carefully before use.

General Safety Guidelines

- Ensure the gage is used only for its intended purpose as specified in this guide.
- Always handle the gage with care to avoid damage or injury.
- Keep the gage out of reach of children and vulnerable individuals.
- Regularly inspect the gage for wear or damage before each use.
- If the gage is damaged or malfunctioning, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Improper use may lead to inaccurate measurements, resulting in oversizing of brass and potential safety hazards during reloading.
- Ensure that the gage is clean and free from debris before use to avoid measurement errors.

- **Avoiding Hazards:**

- Always use a caliper in conjunction with the gage for accurate headspace measurements.
- Do not force the gage into the case; it should fit snugly but not require excessive force.
- Be cautious when resizing cases, especially for belted magnums, to prevent compromising the case life.

- **AgeSpecific Warnings:**

- This product is intended for use by individuals who are knowledgeable about reloading and firearms. It is not intended for use by children or individuals without proper training.

Instructions for Installation and Usage

- **Setting Up the Gage:**

1. Ensure you have a clean workspace and all necessary tools, including a caliper.
2. Familiarize yourself with the gage components and their functions.

- **Using the Gage:**

1. Insert the cartridge case into the gage.
2. Use the caliper to measure the overall length and head length of the case.
3. Compare the measurements with the specifications for the 6MM BRX to determine if trimming is necessary.
4. For belted magnums, ensure that resizing is minimal at the shoulder to maintain case integrity.

- **PostUse Care:**

- Clean the gage after each use to remove any residue.
- Store the gage in a dry, safe place away from direct sunlight and moisture.

Disposal Instructions

- Dispose of the gage in accordance with local regulations.
- If the gage is damaged beyond repair, consider recycling materials where applicable.
- Do not throw the gage in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the WILSON CASE GAGE L.E. WILSON 6MM BRX CASE GAGE, please refer to the manufacturer's contact information provided with the product packaging.

By following these guidelines, you can ensure the safe and effective use of the WILSON CASE GAGE L.E. WILSON 6MM BRX CASE GAGE. Thank you for your attention to safety and compliance.
