

# BUSHING FULL LENGTH DIES - L.E. WILSON 5.56MM BUSHING FULL LENGTH DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson Bushing Type Full Length Sizing Die. This die will allow you to size the case neck to your desired neck tension along with sizing down the rest of the case body at the same time. Die includes an adjustable depth decapping rod. An extra Decapping Punch is included. These dies do not contain an expander. Made of High Quality Heat Treated Steel. These Full Length Bushing dies mimic the neck sizing of Wilsons' neck sizing dies and are designed to leave 3/16" at the bottom of the case neck unsized, a practice many shooters prefer and find to be more accurate than sizing the full neck. Made from High Quality Material - Hardened to L.E. Wilson Specifications Harder than a Grade 8 Bolt Interchangeable Bushings Standard 7/8ths Reloading Press Sizes Shoulder and Body Dimensions Stainless Parts for a Long Lasting Finish Durable and Accurate L.E. Wilson manufactured lock nut - thickness is .225" from inside to outermost edge .270" for height and 1.250" total width OD. Neck Bushing sold separately, we suggest using LE Wilson Neck bushings but Redding bushings will also fit.

# Safety Instruction Guide for BUSHING FULL LENGTH DIES L.E. WILSON 5.56MM

## Introduction

Thank you for choosing the BUSHING FULL LENGTH DIES L.E. WILSON 5.56MM. This product is designed to provide you with accurate and reliable reloading results. To ensure your safety and the proper use of this product, please read this safety instruction guide carefully.

## General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before use.
- Always wear appropriate safety gear, including safety glasses and gloves, when reloading ammunition.
- Keep the reloading area clean and free from distractions.
- Store all reloading components, including dies and casings, out of reach of children and pets.
- Regularly check for any signs of wear or damage on your reloading equipment.

## Specific Safety Precautions for Use

- Do not exceed recommended load specifications for your chosen cartridge.
- Always doublecheck that the die is properly secured in the reloading press before use.
- Use only compatible components (e.g., cases, primers, powders) with this die.
- Avoid using the die with any foreign objects or materials that could cause malfunction.
- If you experience any unusual resistance while resizing, stop immediately and inspect the die and casing for issues.

## Instructions for Installation and Usage

### 1. Installation:

- Secure the die in your reloading press by tightening the lock nut.
- Ensure that the adjustable depth decapping rod is set to the desired depth before use.
- Confirm that the die is aligned properly with the press.

### 2. Usage:

- Begin by inserting a clean, deprimed casing into the die.
- Pull the press handle to size the casing, ensuring smooth operation.
- After sizing, remove the casing and check for proper neck tension and sizing.
- Repeat the process for additional casings as needed.

## Disposal Instructions

- Dispose of any damaged or wornout dies according to local regulations.
- Do not dispose of reloading components in regular household waste.
- Check with local waste management authorities for proper disposal methods for metal and hazardous materials.

## Contact Information for Further Support

For any inquiries regarding safety or product use, please refer to the manufacturer's contact information provided with your product packaging.

By following these guidelines, you can ensure safe and effective use of the BUSHING FULL LENGTH DIES L.E. WILSON 5.56MM. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention and safe reloading!
