

BUSHING FULL LENGTH DIES - 6 BRX BUSHING FULL LENGTH DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson Bushing Type Full Length Sizing Die. This die will allow you to size the case neck to your desired neck tension along with sizing down the rest of the case body at the same time. Die includes an adjustable depth decapping rod. An extra Decapping Punch is included. These dies do not contain an expander. Made of High Quality Heat Treated Steel. These Full Length Bushing dies mimic the neck sizing of Wilsons' neck sizing dies and are designed to leave 3/16" at the bottom of the case neck unsized, a practice many shooters prefer and find to be more accurate than sizing the full neck. Made from High Quality Material - Hardened to L.E. Wilson Specifications Harder than a Grade 8 Bolt Interchangeable Bushings Standard 7/8ths Reloading Press Sizes Shoulder and Body Dimensions Stainless Parts for a Long Lasting Finish Durable and Accurate L.E. Wilson manufactured lock nut - thickness is .225" from inside to outermost edge .270" for height and 1.250" total width OD. Neck Bushing sold separately, we suggest using LE Wilson Neck bushings but Redding bushings will also fit.

Safety Instruction Guide for BUSHING FULL LENGTH DIES 6 BRX

Introduction

Thank you for choosing the Bushing Full Length Dies 6 BRX by L.E. Wilson. This guide provides essential safety instructions to ensure the safe and effective use of your reloading die. Please read this guide thoroughly before use and keep it for future reference.

General Safety Guidelines

- Ensure that you understand all safety precautions before using the product.
- Always wear appropriate safety gear, including safety glasses and gloves, when reloading.
- Keep the work area clean and free from distractions.
- Store the dies in a safe place, out of reach of children and pets.
- Regularly inspect the die for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- Always use the die with a compatible reloading press. The die is designed for standard 7/8ths reloading presses.
- Do not exceed the recommended load specifications for the cartridges you are reloading.
- Ensure that the adjustable depth decapping rod is securely fastened before use.
- Avoid using the die if it shows signs of damage or if any components are missing.
- Do not attempt to modify the die in any way, as this may compromise its safety and effectiveness.
- Be aware of the potential hazards associated with handling reloading materials, including primers and powders.

Instructions for Installation and Usage

1. Installation:

- Secure the die in the reloading press according to the manufacturer's instructions.
- Adjust the depth decapping rod to the desired length for your specific case.
- Ensure that the die is tightened in place to prevent movement during use.

2. Usage:

- Insert a clean, empty case into the reloading press.
- Pull the handle of the press to size the case neck and body simultaneously.
- Monitor the neck tension to ensure it meets your specifications.
- After sizing, remove the case and inspect it for any defects.
- Repeat the process for additional cases as needed.

3. PostUse Care:

- Clean the die after each use to remove any residue or debris.
- Store the die in a protective case or container to prevent damage.
- Keep interchangeable bushings in a safe place, as they are sold separately.

Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations.
- Do not dispose of reloading materials, including spent primers and powders, in regular household waste.
- Contact your local waste management facility for guidance on the proper disposal of hazardous materials.

Contact Information for Further Support

For safety inquiries or further support, please refer to the manufacturer's website or contact the designated support center. Always ensure that you have the latest information regarding product safety and updates.

Thank you for prioritizing safety while using the Bushing Full Length Dies 6 BRX. Your adherence to these guidelines will help ensure a safe and successful reloading experience.
