

BUSHING FULL LENGTH DIES - 6 XC (TUBBS) BUSHING FULL LENGTH DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson Bushing Type Full Length Sizing Die. This die will allow you to size the case neck to your desired neck tension along with sizing down the rest of the case body at the same time. Die includes an adjustable depth decapping rod. An extra Decapping Punch is included. These dies do not contain an expander. Made of High Quality Heat Treated Steel. These Full Length Bushing dies mimic the neck sizing of Wilsons' neck sizing dies and are designed to leave 3/16" at the bottom of the case neck unsized, a practice many shooters prefer and find to be more accurate than sizing the full neck. Mad from High Quality Material - Hardened to L.E. Wilson Specifications Harder than a Grade 8 Bolt Interchangeable Bushings Standard 7/8ths Reloading Press Sizes Shoulder and Body Dimensions Stainless Parts for a Long Lasting Finish Durable and Accurate L.E. Wilson manufactured lock nut - thickness is .225" from inside to outermost edge .270" for height and 1.250" total width OD. Neck Bushing sold separately, we suggest using LE Wilson Neck bushings but Redding bushings will also fit.

Safety Instruction Guide for BUSHING FULL LENGTH DIES 6 XC (TUBBS) BUSHING FULL LENGTH DIE

Introduction

Thank you for choosing the BUSHING FULL LENGTH DIES 6 XC (TUBBS) BUSHING FULL LENGTH DIE. This guide provides essential safety information and instructions to ensure safe and effective use of the product. Please read this guide carefully before using the die to avoid any potential hazards.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including eye protection, when reloading ammunition.
- Keep the work area clean and organized to prevent accidents.
- Store the die and all related tools away from children and unauthorized users.
- Regularly inspect the die for any signs of wear or damage before use.
- Do not modify the die or any of its components.

Specific Safety Precautions for Use

- Use the die only with compatible reloading presses. Ensure that your press meets the standard 7/8ths size requirement.
- Be aware of the potential for sharp edges on the die and its components. Handle with care to avoid cuts or injuries.
- Avoid using excessive force when sizing cases, as this may damage the die or the cases.
- Ensure that the adjustable depth decapping rod is securely fastened before use to prevent accidental dislodging.
- Do not attempt to size cases that are excessively damaged or deformed, as this may lead to dangerous situations.

Instructions for Installation and Usage

1. Installation

- Ensure that the reloading press is securely mounted and stable.
- Insert the BUSHING FULL LENGTH DIE into the press according to the manufacturer's guidelines.
- Adjust the depth decapping rod to the desired setting before securing it in place.
- Ensure that the die is properly aligned with the shell holder of the press.

2. Usage

- Place a clean, empty case into the shell holder of the press.
- Pull the handle of the press to raise the ram and engage the die.
- Monitor the sizing process closely to ensure the die is functioning correctly.
- After sizing, remove the case and inspect it for any defects or issues.

Disposal Instructions

- Dispose of any damaged or wornout dies and components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for local recycling programs that accept metal products.

Contact Information for Further Support

For any inquiries regarding safety or product usage, please refer to the manufacturer's contact information provided with your purchase. Ensure that you have your product details ready for any support requests.

Thank you for prioritizing safety while using the BUSHING FULL LENGTH DIES 6 XC (TUBBS) BUSHING FULL LENGTH DIE. Your adherence to these guidelines will help ensure a safe and successful reloading experience.
