

BUSHING FULL LENGTH DIES - L.E. WILSON 6.5 GRENDL BUSHING FULL LENGTH DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson Bushing Type Full Length Sizing Die. This die will allow you to size the case neck to your desired neck tension along with sizing down the rest of the case body at the same time. Die includes an adjustable depth decapping rod. An extra Decapping Punch is included. These dies do not contain an expander. Made of High Quality Heat Treated Steel. These Full Length Bushing dies mimic the neck sizing of Wilsons' neck sizing dies and are designed to leave 3/16" at the bottom of the case neck unsized, a practice many shooters prefer and find to be more accurate than sizing the full neck. Made from High Quality Material - Hardened to L.E. Wilson Specifications Harder than a Grade 8 Bolt Interchangeable Bushings Standard 7/8ths Reloading Press Sizes Shoulder and Body Dimensions Stainless Parts for a Long Lasting Finish Durable and Accurate L.E. Wilson manufactured lock nut - thickness is .225" from inside to outermost edge .270" for height and 1.250" total width OD. Neck Bushing sold separately, we suggest using LE Wilson Neck bushings but Redding bushings will also fit.

Safety Instruction Guide for BUSHING FULL LENGTH DIES L.E. WILSON 6.5 GRENDEL BUSHING FULL LENGTH DIE

Introduction

Thank you for choosing the BUSHING FULL LENGTH DIES L.E. WILSON 6.5 GRENDEL BUSHING FULL LENGTH DIE. This product is designed to provide you with highquality performance for your reloading needs. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that all reloading equipment is used in a wellventilated area to minimize exposure to dust and fumes.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading dies and components.
- Keep the reloading area clean and organized to prevent accidents and ensure safe handling of materials.
- Store reloading dies and components out of reach of children and pets.
- Follow all local laws and regulations regarding the handling and storage of reloading materials.

Specific Safety Precautions for Use

- Before using the die, inspect it for any visible damage or defects. Do not use if damaged.
- Ensure that the die is properly secured in the reloading press before use to prevent accidents.
- Use only compatible neck bushings as recommended. The use of incorrect bushings may lead to unsafe conditions.
- Adjust the depth of the decapping rod carefully to avoid damaging the die or the cases.
- Do not exceed recommended loads or specifications when reloading ammunition.
- Always doublecheck measurements and settings before beginning the reloading process.

Instructions for Installation and Usage

1. Installation:

- Secure the die in the standard 7/8ths reloading press.
- Ensure that the die is tightened properly to prevent movement during operation.
- Insert the adjustable depth decapping rod into the die and adjust as necessary.

2. Usage:

- Prepare the cases by cleaning and inspecting them for any defects.
- Insert the case into the die and ensure it is seated correctly.
- Operate the reloading press to resize the case neck and body simultaneously.
- After resizing, remove the case and inspect it for proper sizing.
- Store any unused components and dies in a safe location.

Disposal Instructions

- Dispose of any unused or defective components in accordance with local regulations.
- Do not dispose of reloading materials in general waste. Follow specific guidelines for hazardous materials if applicable.

Contact Information for Further Support

For additional support or safety inquiries, please refer to the manufacturer's contact details or visit the manufacturer's website.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the BUSHING FULL LENGTH DIES L.E. WILSON 6.5 GRENDEL BUSHING FULL LENGTH DIE. Always prioritize safety and adhere to best practices while handling and using reloading equipment.
