

# BUSHING FULL LENGTH DIES - L.E. WILSON 7MM REMINGTON MAGNUM BUSHING FULL LENGTH DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson Bushing Type Full Length Sizing Die. This die will allow you to size the case neck to your desired neck tension along with sizing down the rest of the case body at the same time. Die includes an adjustable depth decapping rod. An extra Decapping Punch is included. These dies do not contain an expander. Made of High Quality Heat Treated Steel. These Full Length Bushing dies mimic the neck sizing of Wilsons' neck sizing dies and are designed to leave 3/16" at the bottom of the case neck unsized, a practice many shooters prefer and find to be more accurate than sizing the full neck. Mad from High Quality Material - Hardened to L.E. Wilson Specifications Harder than a Grade 8 Bolt Interchangeable Bushings Standard 7/8ths Reloading Press Sizes Shoulder and Body Dimensions Stainless Parts for a Long Lasting Finish Durable and Accurate L.E. Wilson manufactured lock nut - thickness is .225" from inside to outermost edge .270" for height and 1.250" total width OD. Neck Bushing sold separately, we suggest using LE Wilson Neck bushings but Redding bushings will also fit.

# **Safety Instruction Guide for BUSHING FULL LENGTH DIES L.E. WILSON 7MM REMINGTON MAGNUM BUSHING FULL LENGTH DIE**

## **Introduction**

Thank you for choosing the Bushing Full Length Dies by L.E. Wilson. This product is designed to provide precision and accuracy in reloading for the 7mm Remington Magnum cartridge. To ensure safe and effective use of this product, please carefully read and follow the safety instructions outlined in this guide.

## **General Safety Guidelines**

- Always ensure that the die is used in accordance with the manufacturer's instructions.
- Keep the die and all reloading components out of reach of children and unauthorized users.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling reloading materials.
- Be aware of the potential hazards associated with reloading, including but not limited to:
  - Improper handling of ammunition components.
  - Risks of injury from sharp tools and equipment.
  - The potential for explosive reactions if incorrect materials are used.
- Regularly inspect the die and reloading equipment for signs of wear or damage.
- Report any unsafe products or accidents to the appropriate authorities.

## **Specific Safety Precautions for Use**

- Ensure that the die is compatible with your reloading press and that it is securely mounted before use.
- Do not exceed the recommended load limits for the 7mm Remington Magnum cartridge.
- Always doublecheck measurements and settings before commencing reloading to avoid overloading or underloading cases.
- When adjusting the die, do so gradually and carefully to avoid sudden changes in tension or pressure.
- Do not attempt to modify the die or its components, as this can lead to dangerous malfunctions.
- Use only L.E. Wilson or compatible bushings to ensure proper function and safety.

## **Instructions for Installation and Usage**

### **1. Installation:**

- Ensure your reloading press is clean and free of debris.
- Attach the Bushing Full Length Die to the press by screwing it into the standard 7/8ths reloading press mount.
- Adjust the die to the desired depth by using the adjustable depth decapping rod.

### **2. Usage:**

- Insert the case into the shell holder of your reloading press.
- Raise the ram to bring the case into contact with the die.
- Slowly lower the ram to size the case neck and body simultaneously.
- After sizing, remove the case and inspect it for proper sizing and any signs of damage.
- Repeat the process for each case, ensuring consistent tension and sizing.

## **Disposal Instructions**

- Dispose of any damaged or unusable dies and components in accordance with local regulations.
- Do not throw away in regular household waste; check for designated disposal sites or recycling programs for metal products.
- Ensure that any reloading materials, such as spent primers or powder, are disposed of safely and responsibly.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the Bushing Full Length Dies, please refer to the manufacturer's website or contact their customer support.

By following these guidelines, you can ensure a safe and enjoyable reloading experience with your Bushing Full Length Dies by L.E. Wilson. Thank you for your attention to safety.
