Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Die

Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Die. This product is designed to provide reloaders with a reliable tool for achieving precise bulletseating depths. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- **Product Safety:** This product has been designed to meet safety standards for nonfood products. It is important to use the die as intended to avoid risks.
- **Enhanced Recalls:** In the event of a product recall, you will receive standardized notices and remedies at no cost if the product is found to be dangerous.
- **Online Shopping:** When purchasing online, you are entitled to the same safety protections as when buying in physical stores.
- **Special Consumer Focus:** Extra precautions are in place to protect vulnerable groups, including children. Keep this product out of reach of children.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU contact point for support.
- **Rapid Alerts:** Stay informed about product safety updates through the EU's Safety Gate system.

Specific Safety Precautions for Use

- Always use the die in conjunction with an Arbor Press.
- Ensure that the die is securely mounted before use to prevent accidents.
- Wear appropriate safety gear, such as eye protection, when operating the die.
- Do not exceed the recommended bulletseating depths to avoid potential hazards.
- Keep the work area clean and free of distractions to maintain focus while using the die.
- Inspect the die regularly for any signs of wear or damage before each use.
- Do not modify the die or use it for unintended purposes.

Instructions for Installation and Usage

1. Installation:

- Ensure that your Arbor Press is clean and in good working condition.
- Attach the L.E. Wilson Micrometer Top Bullet Seater Die to the Arbor Press according to the manufacturer's instructions.
- Verify that the die is securely fastened and aligned properly.

2. Usage:

- Set the desired bulletseating depth using the micrometer scale, which is calibrated in 0.001" increments.
- Insert the bullet into the die and ensure it is properly seated.
- Apply consistent pressure using the Arbor Press to seat the bullet.
- After seating, check the bulletseating depth with a caliper to ensure accuracy.
- If adjustments are needed, repeat the process as necessary.

Disposal Instructions

- Dispose of the die in accordance with local regulations for metal products.
- Do not dispose of the die in regular household waste. Instead, take it to a designated recycling facility or hazardous waste collection site if applicable.

Contact Information for Further Support

For any questions or concerns regarding the use of the L.E. Wilson Micrometer Top Bullet Seater Die, please refer to the relevant support resources available in your region.

By following these safety instructions, you can ensure a safe and effective reloading experience with your L.E. Wilson Micrometer Top Bullet Seater Die. Thank you for your attention to safety.
