# Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Die

## Introduction

Thank you for purchasing the L.E. Wilson Micrometer Top Bullet Seater Die. This guide provides important safety instructions and information to ensure safe and effective use of your product. Please read this guide thoroughly before using the die.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as outlined in this guide.
- Always handle reloading equipment with care and follow all safety protocols related to ammunition reloading.
- Keep the die and all related components out of reach of children and unauthorized users.
- Wear appropriate eye and hearing protection when using reloading equipment.
- Regularly inspect the die for any signs of wear or damage. Do not use if damaged.
- Be aware of your surroundings and ensure that you are in a safe environment when using the die.

## Specific Safety Precautions for Use

- Use only with an Arbor Press designed for bullet seating to ensure proper function and safety.
- Make sure the die is securely attached to the press before use to prevent accidents.
- Do not exceed the recommended bulletseating depths for your specific cartridge.
- Always doublecheck measurements before making any adjustments to avoid mistakes.
- Avoid using excessive force when adjusting the micrometer settings.
- Store the die in a dry, cool place to prevent rust and damage.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the Arbor Press is on a stable, flat surface.
- Attach the L.E. Wilson Micrometer Top Bullet Seater Die to the Arbor Press by threading it securely into the press.
- Confirm that the die is aligned properly and tighten it to ensure it does not move during use.

### 2. Usage:

- Start by selecting the appropriate cartridge (6.5 PRC) for your reloading needs.
- Set the micrometer to the desired bulletseating depth using the scale in 0.001" increments.
- Place a bullet into the die and raise the Arbor Press handle to seat the bullet.
- After seating, lower the handle and remove the completed cartridge for inspection.
- Repeat the process, making adjustments as necessary, while ensuring accuracy with each bullet seated.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check for recycling options or hazardous waste disposal facilities in your area.

## **Contact Information for Further Support**

For any safety inquiries or additional support regarding the L.E. Wilson Micrometer Top Bullet Seater Die, please refer to the manufacturer's contact information provided in your product packaging or visit the manufacturer's website.

## **Conclusion**

By following these safety instructions and guidelines, you can ensure a safe and efficient experience with your L.E. Wilson Micrometer Top Bullet Seater Die. Always prioritize safety and refer to this guide whenever needed. Thank you for choosing our product!
