# Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Die

## Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Die. This product is designed to provide reloaders with accurate bulletseating capabilities. To ensure safe and effective use, please read this safety instruction guide thoroughly.

## General Safety Guidelines

- Always use the die in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean and welllit to prevent accidents.
- Keep the die out of reach of children and pets.
- Wear appropriate personal protective equipment (PPE), such as safety glasses, when using the die.
- Regularly inspect the die for signs of wear or damage before each use.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Sharp edges may be present on the die; handle with care.
  - Improper use can lead to inaccurate bullet seating, which may affect firearm performance.
- **Avoiding Hazards:**
  - Always ensure the die is securely attached to the Arbor Press before use.
  - Do not force the die if it does not operate smoothly; check for obstructions.
  - Avoid wearing loose clothing or jewelry that may get caught in the equipment.
- **Age Specific Warnings:**
  - This product is not intended for use by individuals under the age of 18.
  - Ensure that inexperienced users are supervised by an adult who is knowledgeable about reloading.

## Instructions for Installation and Usage

### 1. Installation:

- Securely attach the L.E. Wilson Micrometer Top Bullet Seater Die to your Arbor Press.
- Ensure that the die is aligned properly for accurate bullet seating.

### 2. Usage:

- Adjust the micrometer top to the desired bulletseating depth using the scale in 0.001" increments.
- Place the bullet in the die and apply pressure using the Arbor Press.
- Check the bulletseating depth periodically to ensure consistency.
- After use, clean the die to remove any residue or debris.

### 3. Testing:

- It is recommended to take the Press and Die to the range for testing bullet seating depth. This allows for adjustments without multiple trips.

## Disposal Instructions

- Dispose of the die according to local regulations regarding metal and equipment disposal.
- If the die is damaged or no longer functional, ensure it is disposed of in a manner that prevents harm to the environment or others.

## Contact Information for Further Support

For any inquiries or concerns regarding the L.E. Wilson Micrometer Top Bullet Seater Die, please refer to the product packaging for contact details of the manufacturer. It is important to reach out for support to ensure safe usage of the product.

By following these guidelines and instructions, you can ensure a safe and effective experience with the L.E. Wilson Micrometer Top Bullet Seater Die. Thank you for your attention to safety and responsible reloading practices.
