

WILSON CASE GAGE - L.E. WILSON 224 VALKYRIE CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper headspace, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder. SPECIAL ORDER CASE GAGES ARE AVAILABLE---MEASURE CASE LENGTH ONLY

Attributes

- Name: [L.E. WILSON 224 VALKYRIE CASE GAGE](#)
- Manufacturer: [L.E. WILSON, INC.](#)
- Product no.: 749018910
- Mfr. No.: CG-224V
- Cartridge: 224 Valkyrie
- Delivery weight: 0.147kg
- Shipping height: 29mm
- Shipping width: 32mm
- Shipping length: 83mm
- UPC: 815145027221

WILSON CASE GAGE L.E. WILSON 224 VALKYRIE CASE GAGE Safety Instruction Guide

Introduction

Thank you for choosing the WILSON CASE GAGE L.E. WILSON 224 VALKYRIE CASE GAGE. This guide provides important safety instructions and usage guidelines to ensure your safety and the proper functioning of the product. Please read this manual carefully before use.

General Safety Guidelines

- Ensure that the cartridge case gage is used only for its intended purpose of measuring headspace and overall length of cartridge cases.
- Always handle the case gage with care to avoid damage.
- Keep the gage out of reach of children and vulnerable individuals.
- Regularly inspect the gage for any signs of wear or damage before each use.
- If you notice any defects or irregularities, discontinue use immediately and contact the manufacturer.

Specific Safety Precautions for Use

- Use the gage in a welllit area to ensure accurate measurements.
- When measuring, ensure that the cartridge case is clean and free of debris to avoid inaccurate readings.
- Avoid applying excessive force when using the gage, as this may lead to damage or injury.
- Do not use the gage if you are unsure of its condition or if it has been dropped.
- Always store the gage in a safe place when not in use to prevent accidents.

Instructions for Installation and Usage

1. Setting Up the Gage:

- Ensure the work surface is stable and clean.
- Hold the gage firmly and ensure it is free from any obstructions.

2. Measuring Overall Length:

- Insert the cartridge case into the gage.
- Check the overall length against the gage markings.
- If the overall length exceeds the recommended specifications, trimming may be necessary.

3. Measuring Headspace:

- Use a caliper to measure the head length of the fired case.
- Compare the measurement with the gage to ensure proper headspace.
- Adjust resizing dies as necessary to avoid oversizing.

4. For Adjustable Style Gage:

- When using for belted magnums, ensure that the belt is properly positioned.
- Monitor the shoulder area closely to maintain case integrity.

Disposal Instructions

- Dispose of the gage responsibly when it is no longer usable.

- Follow local regulations for the disposal of metal products.
- Do not dispose of the gage in household waste.

Contact Information for Further Support
