

WILSON CASE GAGE - L.E. WILSON 33 NOSLER CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper headspace, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder.
SPECIAL ORDER CASE GAGES ARE AVAILABLE---MEASURE CASE LENGTH ONLY

Attributes

- Name: [L.E. WILSON 33 NOSLER CASE GAGE](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749018915
- Mfr. No.: CG-33NOS
- Cartridge: 33 Nosler
- Delivery weight: 0.191kg
- Shipping height: 29mm
- Shipping width: 32mm
- Shipping length: 83mm
- UPC: 815145027276

WILSON CASE GAGE Safety Instruction Guide

Introduction

Thank you for choosing the WILSON CASE GAGE for your reloading needs. This guide provides essential safety instructions to ensure the safe use of the product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that all tools and equipment are used in a safe manner.
- Store the WILSON CASE GAGE in a dry and secure location to prevent damage or misuse.
- Keep the gage out of reach of children and vulnerable individuals.
- Regularly inspect the gage for any signs of wear or damage before use.
- Follow all instructions provided in this guide to minimize risks.

Specific Safety Precautions for Use

- Always use the WILSON CASE GAGE in a welllit area.
- Do not use the gage for any purpose other than checking cartridge case dimensions.
- Avoid applying excessive force when using the gage to prevent damage.
- Use appropriate personal protective equipment (PPE), such as safety glasses, when handling ammunition components.
- Be aware of your surroundings and ensure that no one is in close proximity while using the gage.

Instructions for Installation and Usage

1. Setting Up the Gage:

- Ensure the gage is clean and free from debris.
- If using the Regular Style, insert the cartridge case into the gage until it is fully seated.
- For the Adjustable Style, ensure the gage is properly calibrated for belted magnum cartridges.

2. Measuring Headspace:

- Use a caliper to measure the headspace of the fired cases.
- Compare the measurement with the specifications provided for the cartridge to ensure proper sizing.

3. Checking Overall Length:

- Insert the cartridge case into the gage to check the overall length.
- If the overall length exceeds specifications, trimming may be necessary.

4. Resizing:

- When resizing, avoid oversizing the brass to maintain headspace integrity.
- Regularly check the case length and headspace during the resizing process.

Disposal Instructions

- Dispose of any damaged or unusable gages in accordance with local regulations.
- Do not dispose of the gage in regular household waste. Check for local recycling options.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the WILSON CASE GAGE, please refer to the product packaging or visit the manufacturer's website for more information.

By following these guidelines and instructions, you can ensure the safe and effective use of the WILSON CASE GAGE. Thank you for your attention to safety.
