

# TYPE-S ELITE BUSHING DIE SET - REDDING 223 REMINGTON BUSHING DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

INCLUDES - Type S - Bushing Full Sizing Die Type S - Bushing Neck Sizing Die Competition Seating Die Redding Reloading Equipment has once again established a new die set based on customer feedback. The past few years you have seen the introduction of many new sets like the National Match, Master Hunter and the Premiums as a result of changing trends in the category and stated desires of the customer base. The latest, the Redding, Type S Elite die set is also a direct result of customer feedback and is available for 85 different cartridges. The Type S Elite set is comprised of a Type S Bushing Full Die, A Type S Bushing Neck Die and the unparalleled Redding Competition Seating Die. All Type-S dies use an interchangeable bushing to control neck diameter and tension to an increment of 0.001". Bushings are available in hardened steel but also are available with a TIN (Titanium Nitride) coating for even greater lubricity. This allows the handloader complete control and precision when setting the appropriate neck tension without fear of over working the brass in the case neck. These bushings are also free-floating to self-center on the case neck for a higher degree of sizing accuracy. These features provide not only an enhanced degree of control but significant improvements to consistency and accuracy of the final loaded rounds.

## Attributes

- Name: [REDDING 223 REMINGTON BUSHING DIE SET](#)

# Safety Instruction Guide for TYPES ELITE BUSHING DIE SET

## Introduction

Thank you for choosing the TYPES ELITE BUSHING DIE SET by Redding. This guide provides essential safety instructions and information to ensure safe and effective use of the product. Please read this manual carefully before using the die set to avoid any potential hazards and to ensure optimal performance.

## General Safety Guidelines

- Ensure that the die set is used only for its intended purpose, which is reloading ammunition for the 223 Remington cartridge.
- Always wear appropriate safety gear, including safety glasses and gloves, when using reloading equipment.
- Keep the die set out of reach of children and unauthorized users.
- Regularly inspect the die set for any signs of wear or damage before use.
- Follow the manufacturer's instructions and guidelines to ensure safe operation.
- In case of any malfunction or unexpected behavior, cease use immediately and consult a qualified technician.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Potential hazards include the risk of injury from sharp edges, improper handling, and incorrect loading of ammunition.
- **Avoiding Hazards:**
  - Always handle the die set with care, avoiding contact with sharp edges.
  - Ensure that the reloading area is clean and organized to prevent accidents.
  - Do not exceed the recommended specifications for reloading to avoid dangerous overpressure situations.
  - Use only compatible components when reloading to ensure safe operation.
- **Age Specific Warnings:**
  - This product is intended for use by individuals aged 18 and older. Ensure that younger individuals are supervised if they are in the vicinity of the reloading process.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your reloading press is securely mounted and stable before installation.
- Carefully follow the instructions provided in the die set packaging to install the Bushing Full Sizing Die, Bushing Neck Sizing Die, and Competition Seating Die.
- Use the appropriate tools to tighten the dies securely in place without overtightening.

### 2. Usage:

- Before starting the reloading process, read all instructions and ensure you understand the operation of each die.
- Adjust the bushings according to the desired neck tension, ensuring they are properly seated in the dies.
- Follow the recommended procedures for resizing and seating bullets, ensuring that each step is performed in order.

- Monitor the reloading process closely and make adjustments as needed to maintain safety and accuracy.
- After completing the reloading, inspect all loaded rounds for defects before storage or use.

## **Disposal Instructions**

- Dispose of any damaged or unusable components in accordance with local regulations.
- Do not dispose of reloading materials in general waste; consult local hazardous waste disposal guidelines for proper disposal of chemicals and materials.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the TYPES ELITE BUSHING DIE SET, please reach out to the manufacturer. Ensure you have the product details ready for efficient support.

By following these safety instructions, you can ensure a safe and effective reloading experience with your TYPES ELITE BUSHING DIE SET. Thank you for your attention to safety and for choosing Redding products.
