

TYPE-S ELITE BUSHING DIE SET - REDDING 7X57MM MAUSER BUSHING DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

INCLUDES - Type S - Bushing Full Sizing Die Type S - Bushing Neck Sizing Die Competition Seating Die Redding Reloading Equipment has once again established a new die set based on customer feedback. The past few years you have seen the introduction of many new sets like the National Match, Master Hunter and the Premiums as a result of changing trends in the category and stated desires of the customer base. The latest, the Redding, Type S Elite die set is also a direct result of customer feedback and is available for 85 different cartridges. The Type S Elite set is comprised of a Type S Bushing Full Die, A Type S Bushing Neck Die and the unparalleled Redding Competition Seating Die. All Type-S dies use an interchangeable bushing to control neck diameter and tension to an increment of 0.001". Bushings are available in hardened steel but also are available with a TIN (Titanium Nitride) coating for even greater lubricity. This allows the handloader complete control and precision when setting the appropriate neck tension without fear of over working the brass in the case neck. These bushings are also free-floating to self-center on the case neck for a higher degree of sizing accuracy. These features provide not only an enhanced degree of control but significant improvements to consistency and accuracy of the final loaded rounds.

Attributes

- Name: [REDDING 7X57MM MAUSER BUSHING DIE SET](#)

TYPES ELITE BUSHING DIE SET SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the TYPES ELITE BUSHING DIE SET for your reloading needs. This guide provides essential safety information and instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the die set.

General Safety Guidelines

- Always handle all reloading equipment with care and ensure a safe working environment.
- Keep the die set and all reloading components out of reach of children and unauthorized users.
- Use the die set only for its intended purpose as described in this manual.
- Regularly inspect the die set for any signs of wear or damage. Do not use damaged components.
- Ensure that you are using the correct bushing for your specific cartridge to avoid accidents.
- Follow all local laws and regulations regarding the reloading of ammunition.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses, when reloading ammunition.
- Do not exceed recommended loads as specified in reputable reloading manuals.
- Ensure that your work area is welllit and free of clutter.
- Never leave reloading equipment unattended while in use.
- Be mindful of potential hazards, such as lead exposure and the handling of gunpowder.
- Always doublecheck your measurements and settings before proceeding with reloading.

Instructions for Installation and Usage

1. Preparation

- Ensure that your work area is clean and organized.
- Gather all necessary tools and materials, including the die set, bushings, and reloading components.

2. Installation of the Die Set

- Secure the Type S Bushing Full Die in your reloading press according to the manufacturer's instructions.
- Install the Type S Bushing Neck Die in the same manner.
- Ensure that the Redding Competition Seating Die is also securely installed.

3. Setting Up the Bushings

- Select the appropriate bushing for your cartridge. Ensure it is compatible with the 7 mm Mauser (7 x 57 mm Mauser).
- Insert the bushing into the die and ensure it is properly seated.

4. Reloading Process

- Follow the reloading manual for your specific cartridge to determine the correct load data.
- Use the bushing to control neck tension, adjusting as necessary for your desired specifications.
- After resizing, check the neck diameter for consistency using a caliper.

5. Finalizing the Rounds

- Use the Redding Competition Seating Die to seat the bullet to the desired depth.
- Inspect each round for proper seating and overall quality.

Disposal Instructions

- Dispose of all reloading components and materials in accordance with local regulations.
- Do not dispose of spent primers, powder, or any hazardous materials in regular trash.
- Contact local waste management authorities for guidance on the safe disposal of hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the TYPES ELITE BUSHING DIE SET, please refer to the manufacturer's website or contact your local dealer for assistance.

By following these safety instructions and guidelines, you can ensure a safe and enjoyable reloading experience. Always prioritize safety and adhere to best practices when handling reloading equipment.
