

# TYPE-S ELITE BUSHING DIE SET - REDDING 300 WINCHESTER MAGNUM BUSHING DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

INCLUDES - Type S - Bushing Full Sizing Die Type S - Bushing Neck Sizing Die Competition Seating Die Redding Reloading Equipment has once again established a new die set based on customer feedback. The past few years you have seen the introduction of many new sets like the National Match, Master Hunter and the Premiums as a result of changing trends in the category and stated desires of the customer base. The latest, the Redding, Type S Elite die set is also a direct result of customer feedback and is available for 85 different cartridges. The Type S Elite set is comprised of a Type S Bushing Full Die, A Type S Bushing Neck Die and the unparalleled Redding Competition Seating Die. All Type-S dies use an interchangeable bushing to control neck diameter and tension to an increment of 0.001". Bushings are available in hardened steel but also are available with a TIN (Titanium Nitride) coating for even greater lubricity. This allows the handloader complete control and precision when setting the appropriate neck tension without fear of over working the brass in the case neck. These bushings are also free-floating to self-center on the case neck for a higher degree of sizing accuracy. These features provide not only an enhanced degree of control but significant improvements to consistency and accuracy of the final loaded rounds.

## Attributes

- Name: [REDDING 300 WINCHESTER MAGNUM BUSHING DIE SET](#)

# Safety Instruction Guide for TYPES ELITE BUSHING DIE SET REDDING 300 WINCHESTER MAGNUM BUSHING DIE SET

## Introduction

Thank you for choosing the TYPES ELITE BUSHING DIE SET REDDING 300 WINCHESTER MAGNUM BUSHING DIE SET. This product is designed for precision reloading, ensuring the safety and quality of your ammunition. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure that the die set is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the die set out of reach of children and unauthorized users.
- Regularly inspect the die set for any signs of wear or damage before use.
- Store the die set in a dry, secure location when not in use.
- Report any unsafe conditions or incidents to the relevant authorities.

## Specific Safety Precautions for Use

- Always ensure that the reloading press is securely mounted and stable before use.
- Do not exceed the recommended load specifications for the cartridges being used.
- Use only the specified bushings for your die set to maintain proper neck tension.
- Avoid overworking the brass in the case neck to prevent case failure.
- Ensure that all components of the reloading setup are compatible and in good condition.
- Be aware of the potential hazards associated with handling reloading materials, including primers and powders.

## Instructions for Installation and Usage

### 1. Installation:

- Remove the die set from its packaging and inspect for any damage.
- Refer to the reloading press manual for specific installation instructions.
- Install the Type S Bushing Full Die, Type S Bushing Neck Die, and Competition Seating Die into the reloading press according to the manufacturer's guidelines.
- Adjust the dies to the desired settings for your specific cartridge.

### 2. Usage:

- Follow the reloading data provided for the 300 Winchester Magnum cartridge.
- Insert the appropriate bushing into the Bushing Full Die and Bushing Neck Die.
- Ensure that the bushing is seated correctly and securely.
- Proceed with the reloading process, monitoring for any irregularities in the operation.
- After reloading, inspect each cartridge for quality and safety before use.

## Disposal Instructions

- Dispose of any damaged or unusable components of the die set in accordance with local waste disposal regulations.

- Do not dispose of reloading materials, such as primers and powders, in regular trash.
- Contact local waste management authorities for guidance on the disposal of hazardous materials.

## **Contact Information for Further Support**

For any questions or concerns regarding the TYPES ELITE BUSHING DIE SET, please refer to the manufacturer's contact information provided in the product packaging or manual.

By following these safety instructions, you can ensure a safe and effective reloading experience. Thank you for prioritizing safety and quality in your reloading practices.
