

TYPE-S ELITE BUSHING DIE SET - REDDING 300 WSM BUSHING DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

INCLUDES - Type S - Bushing Full Sizing Die Type S - Bushing Neck Sizing Die Competition Seating Die Redding Reloading Equipment has once again established a new die set based on customer feedback. The past few years you have seen the introduction of many new sets like the National Match, Master Hunter and the Premiums as a result of changing trends in the category and stated desires of the customer base. The latest, the Redding, Type S Elite die set is also a direct result of customer feedback and is available for 85 different cartridges. The Type S Elite set is comprised of a Type S Bushing Full Die, A Type S Bushing Neck Die and the unparalleled Redding Competition Seating Die. All Type-S dies use an interchangeable bushing to control neck diameter and tension to an increment of 0.001". Bushings are available in hardened steel but also are available with a TIN (Titanium Nitride) coating for even greater lubricity. This allows the handloader complete control and precision when setting the appropriate neck tension without fear of over working the brass in the case neck. These bushings are also free-floating to self-center on the case neck for a higher degree of sizing accuracy. These features provide not only an enhanced degree of control but significant improvements to consistency and accuracy of the final loaded rounds.

Attributes

- Name: [REDDING 300 WSM BUSHING DIE SET](#)

Safety Instruction Guide for TYPES ELITE BUSHING DIE SET

Introduction

Thank you for choosing the TYPES ELITE BUSHING DIE SET. This guide provides essential safety instructions to ensure the safe and effective use of your reloading equipment. Please read and understand these instructions before using the product.

General Safety Guidelines

- Ensure safe use of all nonfood products, including new technologies and online purchases.
- Be aware of risks not covered by other EU laws.
- Online shopping provides the same protections as physical stores; ensure that your online platform meets safety requirements.
- Extra safeguards are in place for vulnerable groups, such as children.
- For safety inquiries, refer to the EU contact point associated with this product.
- Stay informed about unsafe products and recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the workspace clean and free from obstructions to prevent accidents.
- Ensure that all tools and equipment are in good working condition before use.
- Do not exceed the recommended load specifications for your cartridges.
- Avoid distractions while reloading to maintain focus on the task.
- Store all reloading components and equipment out of reach of children and unauthorized users.
- Be cautious when handling firearms and ammunition; follow all applicable laws and regulations.

Instructions for Installation and Usage

1. Unpacking the Die Set

- Carefully remove the die set from the packaging.
- Inspect all components for any damage or defects.

2. Setting Up the Dies

- Secure the Type S Bushing Full Die and Type S Bushing Neck Die in your reloading press according to the manufacturer's instructions.
- Adjust the dies to the appropriate settings for your specific cartridge.

3. Using the Bushing Dies

- Select the correct bushing for your desired neck diameter and tension.
- Ensure that the bushing is properly seated in the die.
- Always check the neck tension with a gauge before proceeding with reloading.

4. Reloading Process

- Follow the reloading steps carefully, including case preparation, powder measurement, bullet seating, and crimping.

- Monitor the process closely to ensure consistency and accuracy.

5. PostUse Care

- Clean the dies after each use to prevent residue buildup.
- Store the die set in a safe, dry place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of hazardous materials in regular trash; follow local guidelines for hazardous waste disposal.

Contact Information for Further Support

For any questions or concerns regarding the TYPES ELITE BUSHING DIE SET, please refer to the manufacturer's contact information provided with your product. It is important to reach out for assistance if you encounter any issues or have safety inquiries.

Thank you for prioritizing safety while using the TYPES ELITE BUSHING DIE SET. Your adherence to these guidelines will help ensure a safe and enjoyable reloading experience.
