

TYPE-S ELITE BUSHING DIE SET - REDDING 243 WSSM BUSHING DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

INCLUDES - Type S - Bushing Full Sizing Die Type S - Bushing Neck Sizing Die Competition Seating Die Redding Reloading Equipment has once again established a new die set based on customer feedback. The past few years you have seen the introduction of many new sets like the National Match, Master Hunter and the Premiums as a result of changing trends in the category and stated desires of the customer base. The latest, the Redding, Type S Elite die set is also a direct result of customer feedback and is available for 85 different cartridges. The Type S Elite set is comprised of a Type S Bushing Full Die, A Type S Bushing Neck Die and the unparalleled Redding Competition Seating Die. All Type-S dies use an interchangeable bushing to control neck diameter and tension to an increment of 0.001". Bushings are available in hardened steel but also are available with a TIN (Titanium Nitride) coating for even greater lubricity. This allows the handloader complete control and precision when setting the appropriate neck tension without fear of over working the brass in the case neck. These bushings are also free-floating to self-center on the case neck for a higher degree of sizing accuracy. These features provide not only an enhanced degree of control but significant improvements to consistency and accuracy of the final loaded rounds.

Attributes

Safety Instruction Guide for TYPES ELITE BUSHING DIE SET REDDING 243 WSSM BUSHING DIE SET

Introduction

Thank you for choosing the TYPES ELITE BUSHING DIE SET by Redding. This product is designed for precision reloading and is suitable for experienced handloaders. To ensure safe and effective use, please read and follow the safety guidelines and instructions provided in this document.

General Safety Guidelines

- Always handle reloading equipment with care to avoid accidents.
- Ensure that your workspace is clean, organized, and free from distractions.
- Keep the die set and all reloading components out of reach of children and pets.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling materials.
- Be aware of the potential hazards associated with reloading, including the risk of injury from sharp tools and the handling of powders and primers.
- Regularly inspect all equipment for wear or damage before use.

Specific Safety Precautions for Use

- Before using the die set, read the instructions thoroughly to understand the setup and operation.
- Ensure that the bushing is correctly installed and securely fastened before sizing cases.
- Do not exceed the recommended load limits for the cartridges being used.
- Avoid overworking brass, as this can lead to case failure and potential injury.
- Store the die set in a dry, cool place to prevent rust and damage.
- Be cautious when adjusting neck tension; use only the appropriate bushings for your specific cartridge.

Instructions for Installation and Usage

1. Setup

- Gather all necessary tools and materials, including the die set, reloading press, and cartridges.
- Ensure that your workspace is welllit and organized.

2. Installing the Die Set

- Attach the Type S Bushing Full Die to your reloading press according to the manufacturer's instructions.
- Insert the appropriate bushing into the die to control neck diameter and tension.
- Secure the die in place and ensure it is properly aligned.

3. Using the Die Set

- Insert a case into the reloading press and lower the ram to size the case.
- Monitor the neck tension and adjust as necessary by changing the bushing.
- Use the Competition Seating Die for seating bullets to the desired depth.

4. PostUse Care

- Clean the die set after use to remove any residue or debris.

- Store the die set in its original packaging or a designated storage case.

Disposal Instructions

- Dispose of any damaged or worn components of the die set in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of hazardous materials, such as powders and primers, in regular trash. Follow local guidelines for hazardous waste disposal.

Contact Information for Further Support

For any safety inquiries or support regarding the TYPES ELITE BUSHING DIE SET, please refer to the manufacturer's contact details provided with your product documentation.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and efficient reloading experience with the TYPES ELITE BUSHING DIE SET. Always prioritize safety and be mindful of the potential hazards associated with reloading activities. Thank you for your attention to these important safety measures.
