

# TYPE-S ELITE BUSHING DIE SET - REDDING 300 REMINGTON SAUM BUSHING DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

INCLUDES - Type S - Bushing Full Sizing Die Type S - Bushing Neck Sizing Die Competition Seating Die Redding Reloading Equipment has once again established a new die set based on customer feedback. The past few years you have seen the introduction of many new sets like the National Match, Master Hunter and the Premiums as a result of changing trends in the category and stated desires of the customer base. The latest, the Redding, Type S Elite die set is also a direct result of customer feedback and is available for 85 different cartridges. The Type S Elite set is comprised of a Type S Bushing Full Die, A Type S Bushing Neck Die and the unparalleled Redding Competition Seating Die. All Type-S dies use an interchangeable bushing to control neck diameter and tension to an increment of 0.001". Bushings are available in hardened steel but also are available with a TIN (Titanium Nitride) coating for even greater lubricity. This allows the handloader complete control and precision when setting the appropriate neck tension without fear of over working the brass in the case neck. These bushings are also free-floating to self-center on the case neck for a higher degree of sizing accuracy. These features provide not only an enhanced degree of control but significant improvements to consistency and accuracy of the final loaded rounds.

## Attributes

- Name: [REDDING 300 REMINGTON SAUM BUSHING DIE SET](#)

# **Safety Instruction Guide for TYPES ELITE BUSHING DIE SET REDDING 300 REMINGTON SAUM BUSHING DIE SET**

## **Introduction**

Thank you for choosing the TYPES ELITE BUSHING DIE SET from Redding. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read and follow these guidelines carefully to avoid potential hazards and ensure optimal performance.

## **General Safety Guidelines**

- Always ensure that the workspace is clean and organized before using the die set.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, to protect against metal shavings and other debris.
- Keep the die set out of reach of children and pets to prevent accidental injury.
- Regularly inspect the die set for any signs of wear or damage before use.
- Do not modify the die set in any way, as this may compromise its safety and performance.
- Follow all manufacturer instructions and guidelines for safe handling and usage.

## **Specific Safety Precautions for Use**

- Ensure that your reloading press is compatible with the TYPES ELITE BUSHING DIE SET before installation.
- Always use the correct bushing size for the cartridge you are reloading to avoid overworking the brass.
- When sizing cases, apply consistent pressure to ensure even sizing and to avoid injury.
- Use caution when handling brass cases, as they may have sharp edges that can cause cuts.
- Do not exceed recommended load limits when reloading ammunition.
- Store bushings and dies in a safe, dry place to prevent rust and damage.

## **Instructions for Installation and Usage**

### **1. Installation**

- Read the instruction manual that comes with the die set thoroughly.
- Ensure that your reloading press is securely mounted and stable.
- Install the Type S Bushing Full Die into the press, tightening it securely.
- Insert the appropriate bushing into the die, ensuring it is seated correctly.
- Install the Type S Bushing Neck Die in the same manner as the full die.
- Finally, install the Redding Competition Seating Die, following the same procedure.

### **2. Usage**

- Prepare your brass cases by cleaning and inspecting them for any defects.
- Adjust the die height according to the manufacturer's instructions to ensure proper sizing.
- Begin with the Bushing Full Sizing Die to size the cases, applying consistent pressure.
- After sizing, use the Bushing Neck Sizing Die to adjust the neck tension as needed.
- Finally, use the Competition Seating Die to seat the bullets to the desired depth.
- After reloading, visually inspect all rounds before use to ensure they meet safety standards.

## **Disposal Instructions**

- Dispose of any damaged or worn parts of the die set according to local regulations.
- Do not throw away the die set in regular household waste. Instead, check for recycling options for metal components.
- Ensure that all packaging materials are disposed of properly to minimize environmental impact.

## **Contact Information for Further Support**

For any questions or concerns regarding the TYPES ELITE BUSHING DIE SET, please refer to the manufacturer's contact information provided in the product documentation. It is essential to reach out to them for any safety inquiries or support you may need.

## **Conclusion**

By following these safety instructions, you can ensure a safe and efficient reloading experience with the TYPES ELITE BUSHING DIE SET. Always prioritize safety and adhere to best practices for reloading to achieve the best results. Thank you for your attention to these guidelines.
