

# TYPE-S ELITE BUSHING DIE SET - REDDING 300 REMINGTON ULTRA MAGNUM BUSHING DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

INCLUDES - Type S - Bushing Full Sizing Die Type S - Bushing Neck Sizing Die Competition Seating Die Redding Reloading Equipment has once again established a new die set based on customer feedback. The past few years you have seen the introduction of many new sets like the National Match, Master Hunter and the Premiums as a result of changing trends in the category and stated desires of the customer base. The latest, the Redding, Type S Elite die set is also a direct result of customer feedback and is available for 85 different cartridges. The Type S Elite set is comprised of a Type S Bushing Full Die, A Type S Bushing Neck Die and the unparalleled Redding Competition Seating Die. All Type-S dies use an interchangeable bushing to control neck diameter and tension to an increment of 0.001". Bushings are available in hardened steel but also are available with a TIN (Titanium Nitride) coating for even greater lubricity. This allows the handloader complete control and precision when setting the appropriate neck tension without fear of over working the brass in the case neck. These bushings are also free-floating to self-center on the case neck for a higher degree of sizing accuracy. These features provide not only an enhanced degree of control but significant improvements to consistency and accuracy of the final loaded rounds.

## Attributes

- Name: [REDDING 300 REMINGTON ULTRA MAGNUM BUSHING DIE SET](#)

# Safety Instruction Guide for TYPES ELITE BUSHING DIE SET

## Introduction

Thank you for choosing the TYPES ELITE BUSHING DIE SET for your reloading needs. This guide provides essential safety information and instructions to ensure the safe and effective use of the product. Please read this guide thoroughly before use.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in this guide.
- Always follow the manufacturer's instructions for loading and using ammunition.
- Store the die set in a dry, secure location away from children and pets.
- Wear appropriate safety gear, including safety glasses and hearing protection, when reloading ammunition.
- Be aware of your surroundings when using the die set, and ensure that the area is clear of distractions.
- Regularly inspect the die set for wear or damage before each use.

## Specific Safety Precautions for Use

- Use the die set only with compatible cartridges as specified in the product description.
- Avoid exceeding recommended pressures and loads for the cartridges you are using.
- Ensure that the bushing is correctly installed and secured before use to prevent accidents.
- Do not attempt to modify the die set or its components in any way.
- Keep your hands and body clear of the die during operation to prevent injury.
- If any part of the die set appears to be damaged or malfunctioning, discontinue use immediately and consult a qualified technician.

## Instructions for Installation and Usage

### Installation

- Carefully unpack the die set and inspect all components for damage.
- Secure the bushing full die and bushing neck die in a reloading press according to the manufacturer's instructions.
- Adjust the bushing to the desired neck tension. Ensure it is properly seated and locked in place.
- Refer to the specific cartridge loading data for accurate measurements and settings.

### Usage

- Follow the appropriate reloading procedures for the cartridge type you are working with.
- When resizing cases, ensure that the die is properly adjusted to avoid overworking the brass.
- Use the competition seating die to ensure precise bullet seating depth.
- Regularly check and adjust neck tension as needed for consistent results.
- Clean the die set after each use to maintain performance and longevity.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the die set in regular household waste.
- Consult with local waste management authorities for proper disposal methods of metal components.

## **Contact Information for Further Support**

For safety inquiries and further support, please refer to the manufacturer's website or customer service resources provided with your product.

By adhering to these guidelines, you can ensure the safe and effective use of your TYPES ELITE BUSHING DIE SET. Thank you for your attention to safety and for choosing our product for your reloading needs.
