

# TYPE-S ELITE BUSHING DIE SET - REDDING 6.5-284 NORMA BUSHING DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

INCLUDES - Type S - Bushing Full Sizing Die Type S - Bushing Neck Sizing Die Competition Seating Die Redding Reloading Equipment has once again established a new die set based on customer feedback. The past few years you have seen the introduction of many new sets like the National Match, Master Hunter and the Premiums as a result of changing trends in the category and stated desires of the customer base. The latest, the Redding, Type S Elite die set is also a direct result of customer feedback and is available for 85 different cartridges. The Type S Elite set is comprised of a Type S Bushing Full Die, A Type S Bushing Neck Die and the unparalleled Redding Competition Seating Die. All Type-S dies use an interchangeable bushing to control neck diameter and tension to an increment of 0.001". Bushings are available in hardened steel but also are available with a TIN (Titanium Nitride) coating for even greater lubricity. This allows the handloader complete control and precision when setting the appropriate neck tension without fear of over working the brass in the case neck. These bushings are also free-floating to self-center on the case neck for a higher degree of sizing accuracy. These features provide not only an enhanced degree of control but significant improvements to consistency and accuracy of the final loaded rounds.

## Attributes

- Name: [REDDING 6.5-284 NORMA BUSHING DIE SET](#)
- Manufacturer: [REDDING](#)

# **Safety Instruction Guide for TYPES ELITE BUSHING DIE SET REDDING 6.5284 NORMA BUSHING DIE SET**

## **Introduction**

Thank you for choosing the TYPES ELITE BUSHING DIE SET from Redding. This guide provides important safety instructions and guidelines to ensure the safe use of your new reloading equipment. Please read this document carefully before using the product.

## **General Safety Guidelines**

- Ensure that you are familiar with the operation of reloading equipment before use.
- Always work in a wellventilated area to avoid inhaling any dust or particles generated during the reloading process.
- Keep the workspace clean and organized to prevent accidents.
- Store all reloading components, including dies, securely and out of reach of children and pets.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling reloading materials.
- Report any unsafe product conditions or accidents to the relevant authorities.

## **Specific Safety Precautions for Use**

- Always follow the manufacturer's instructions for the use of the die set.
- Inspect the die set for any damage before use. Do not use if damaged.
- Ensure that the bushing is properly installed before attempting to resize brass.
- Do not exceed recommended pressures or loads as specified in reloading manuals.
- Use only compatible cartridges with the die set to avoid malfunctions or accidents.
- Never attempt to modify the die set or its components.
- Always keep fingers and hands clear of moving parts during operation.

## **Instructions for Installation and Usage**

### **1. Installation of the Die Set:**

- Ensure that your reloading press is securely mounted and stable.
- Remove the die set from its packaging and inspect for any damage.
- Install the Bushing Full Sizing Die into the press according to the manufacturer's instructions.
- Follow the same procedure for the Bushing Neck Sizing Die and the Competition Seating Die.

### **2. Setting Up the Bushings:**

- Select the appropriate bushing for your cartridge and install it into the Bushing Full Sizing Die.
- Adjust the bushing to achieve the desired neck tension as per your specifications.

### **3. Resizing Brass:**

- Place the brass case into the shell holder on the press.
- Operate the press to resize the brass using the Bushing Full Sizing Die.
- Repeat the process using the Bushing Neck Sizing Die if necessary.

### **4. Seating Bullets:**

- Insert the bullet into the case mouth.
- Use the Competition Seating Die to seat the bullet to the desired depth.
- Ensure that the die is properly adjusted for consistent seating depth.

#### **5. Final Inspection:**

- After reloading, inspect each round for proper dimensions and overall quality.
- Store completed ammunition in a safe and secure location.

## **Disposal Instructions**

- Dispose of any unused or spent components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any inquiries or support related to the TYPES ELITE BUSHING DIE SET, please refer to the contact details provided on the product packaging or the manufacturer's website.

By following these safety instructions and guidelines, you can ensure a safe and efficient reloading experience. Thank you for your attention to safety and for choosing Redding products.
