

# TYPE-S ELITE BUSHING DIE SET - REDDING 6MM DASHER BUSHING DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

INCLUDES - Type S - Bushing Full Sizing Die Type S - Bushing Neck Sizing Die Competition Seating Die Redding Reloading Equipment has once again established a new die set based on customer feedback. The past few years you have seen the introduction of many new sets like the National Match, Master Hunter and the Premiums as a result of changing trends in the category and stated desires of the customer base. The latest, the Redding, Type S Elite die set is also a direct result of customer feedback and is available for 85 different cartridges. The Type S Elite set is comprised of a Type S Bushing Full Die, A Type S Bushing Neck Die and the unparalleled Redding Competition Seating Die. All Type-S dies use an interchangeable bushing to control neck diameter and tension to an increment of 0.001". Bushings are available in hardened steel but also are available with a TIN (Titanium Nitride) coating for even greater lubricity. This allows the handloader complete control and precision when setting the appropriate neck tension without fear of over working the brass in the case neck. These bushings are also free-floating to self-center on the case neck for a higher degree of sizing accuracy. These features provide not only an enhanced degree of control but significant improvements to consistency and accuracy of the final loaded rounds.

## Attributes

- Name: [REDDING 6MM DASHER BUSHING DIE SET](#)

# TYPES ELITE BUSHING DIE SET Safety Instructions

## Introduction

Thank you for choosing the TYPES ELITE BUSHING DIE SET by Redding. This guide provides essential safety instructions to ensure your safe and effective use of this product. Please read this manual carefully before using the die set.

## General Safety Guidelines

- Ensure that you understand all instructions before using the die set.
- Use the die set only for its intended purpose: reloading ammunition for the specified cartridges.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when operating reloading equipment.
- Keep the die set and all reloading components out of reach of children and unauthorized users.
- Regularly inspect the die set for signs of wear or damage. Do not use damaged components.
- Be aware of your surroundings and ensure that your workspace is clean and organized to prevent accidents.

## Specific Safety Precautions for Use

- Handle all reloading components, including primers and powders, with care to prevent accidental ignition.
- Store all reloading materials in a cool, dry place away from direct sunlight and heat sources.
- Follow the manufacturer's recommended load data and do not exceed maximum load limits.
- Ensure that the bushing is properly installed before use to avoid malfunction.
- Use the die set in a wellventilated area to minimize exposure to dust and fumes.
- Never leave the die set unattended while in use.

## Instructions for Installation and Usage

### 1. Installation of the Die Set:

- Remove the die set from its packaging and inspect for any damage.
- Select the appropriate bushing for your cartridge and ensure it is clean.
- Install the Bushing Full Sizing Die into your reloading press, following the manufacturer's instructions.
- Secure the die in place and adjust it according to your desired neck tension.

### 2. Using the Die Set:

- Insert a clean, empty cartridge case into the reloading press.
- Operate the press to size the case using the Bushing Full Sizing Die.
- After sizing, switch to the Bushing Neck Sizing Die if necessary, following the same procedure.
- Finally, use the Competition Seating Die to seat the bullet to the desired depth.
- Always check the dimensions and specifications of the loaded round against your desired standards.

### 3. PostUse Care:

- Clean the die set after each use to remove any residue or debris.
- Store the die set in a secure location, preferably in its original packaging.

## **Disposal Instructions**

- Dispose of any damaged or wornout components in accordance with local regulations.
- Do not throw away hazardous materials, such as primers or powders, in regular trash. Follow your local hazardous waste disposal guidelines.

## **Contact Information for Further Support**

For any safety inquiries or additional support regarding the TYPES ELITE BUSHING DIE SET, please refer to the manufacturer's website or contact their customer service.

By following these safety instructions, you can ensure a safer reloading experience with the TYPES ELITE BUSHING DIE SET. Always prioritize safety and consult this guide whenever you have questions about the product's use.
