

# NECK SIZING DIES - REDDING 22 CREEDMOOR NECK SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

## Attributes

- Name: [REDDING 22 CREEDMOOR NECK SIZING DIE](#)

# NECK SIZING DIES REDDING 22 CREEDMOOR NECK SIZING DIE Safety Instruction Guide

## Introduction

Thank you for choosing the Redding Neck Sizing Die for your 22 Creedmoor cartridges. This guide provides essential safety instructions to ensure the safe use of this product, in compliance with the EU General Product Safety Regulation (GPSR). It is important to follow these guidelines to avoid risks associated with improper use.

## General Safety Guidelines

- Always read and understand the instructions before using the neck sizing die.
- Ensure that the die is compatible with your specific rifle and cartridge.
- Keep the die out of the reach of children and vulnerable individuals.
- Inspect the die for any damage before each use.
- Use the die only for its intended purpose; do not modify it in any way.
- If you notice any unusual behavior during use, stop immediately and inspect the die.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Wear appropriate safety gear, including safety glasses, when using the die.
- Ensure your workspace is clean and free from hazards to prevent accidents.
- Always handle the die with care to avoid injury.
- Do not interchange fired cases between different rifles, as this can lead to dangerous situations.
- Use the die in a wellventilated area to avoid inhaling any fumes generated during the resizing process.
- Follow the manufacturer's instructions for the proper handling and operation of the die.

## Instructions for Installation and Usage

### 1. Installation

- Ensure that your reloading press is securely mounted and stable.
- Insert the neck sizing die into the press according to the manufacturer's instructions.
- Adjust the die height according to the specifications provided in the product manual.

### 2. Usage

- Start by inspecting your fired cases for any signs of damage or wear.
- Lubricate the neck of the case lightly to prevent sticking in the die.
- Place the case in the die and apply steady pressure using the reloading press handle.
- After resizing, check the neck tension and ensure it meets your specifications.
- Clean the die regularly to maintain performance and avoid any buildup of residue.

## Disposal Instructions

- Dispose of any damaged or unusable dies according to local regulations.
- Recycle materials when possible, following your local waste management guidelines.
- Do not dispose of the die in regular household waste if it is still functional; consider donating or selling it to another user.

## **Contact Information for Further Support**

For any questions regarding the Redding Neck Sizing Die or safety concerns, please refer to the manufacturer's contact information provided with your product packaging. Always ensure that you have the latest information and updates regarding product safety.

Thank you for prioritizing safety while using the Redding Neck Sizing Die. Your adherence to these guidelines helps ensure a safe and effective reloading experience.
