

# 9000GN AUTO-INDEXING SHOTSHELL RELOADER - MEC RELOADING

## 9000GN PROGRESSIVE SHOTSHELL PRESS 16 GAUGE

[Reloading](#) > [Reloading Presses](#) > [Shotshell Presses](#)

The 9000GN has all the innovative features found on the 8567N Grabber, plus automatic indexing and finished-shell ejection for quicker and easier reloading. Dropping the primer into the reprime station no longer requires operator "feel". The 9000GN requires only a minimal adjustment from low to high brass domestic shells and shells can be removed for inspection from any station. MEC's revolutionary Auto-Dex automatically moves the shells through each reloading stage by simply returning the handle to the top of its stroke. Accurately resized shells are achieved with each stroke.

### Attributes

# 9000GN AUTOINDEXING SHOTSHELL RELOADER

## Safety Instruction Guide

### Introduction

Thank you for choosing the 9000GN AutoIndexing Shotshell Reloader. This guide provides essential safety instructions to ensure the safe and effective use of your reloader. Please read this guide carefully before using the product.

### General Safety Guidelines

- Ensure that the reloader is used only by individuals who are familiar with reloading practices.
- Keep the reloader out of reach of children and unauthorized users.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when operating the reloader.
- Regularly inspect the reloader for any signs of wear or damage before use.
- Do not use the reloader if any parts are missing or damaged.
- Follow all local laws and regulations regarding the use of reloading equipment and ammunition.

### Specific Safety Precautions for Use

- Do not overload the reloader beyond its specified capacity.
- Always use the correct gauge shotshells for your reloader (16 Gauge).
- Ensure that the primer is correctly seated before proceeding with the reloading process.
- Avoid placing hands or any body parts near moving parts during operation.
- Do not attempt to disassemble or modify the reloader while it is in operation.
- If you experience any unusual sounds or malfunctions, stop using the reloader immediately and inspect it for issues.

### Instructions for Installation and Usage

#### Installation

1. Choose a stable and level surface for the reloader.
2. Securely attach the reloader to the work surface using the provided mounting hardware.
3. Ensure that the reloader is positioned for easy access to all stations.

#### Usage

1. **Preparation:** Gather all necessary components, including shotshells, primers, powder, and wads.
2. **Loading Primer:** Drop the primer into the reprime station. Ensure it is seated properly.
3. **Shell Loading:** Insert the empty shotshell into the appropriate station.
4. **Indexing:** Pull the handle to the top of its stroke to activate the AutoDex feature, moving the shell through each reloading stage.
5. **Inspection:** Periodically check shells for proper resizing and loading at any station.
6. **Ejection:** Once the reloading process is complete, eject the finished shell safely.

### Disposal Instructions

- Dispose of any unused or defective components according to local regulations.
- Do not dispose of primers or powder in regular trash. Follow local hazardous waste disposal guidelines.
- Recycle any metal parts of the reloader where possible.

## **Contact Information for Further Support**

For safety inquiries or support, please refer to the manufacturer's website or contact the local distributor. Ensure you have the model number and other relevant information ready for any inquiries.

Thank you for using the 9000GN AutoIndexing Shotgun Reloader. Your safety is our priority.
