

WILSON STAINLESS SEATER CAP AND STEMS - L.E. WILSON SS BULLET SEATING DRIFT ASSEMBLY 30 CAL

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a closefitting seating stem. This style of bullet seater works more accurately than a conventional 7/8"-14 bullet seating die. This Seater Cap and Stem are the same as what's supplied with the Chamber Type Bullet Seater Dies from Wilson. Great to have on hand in case your factory cap and stem should become lost or damaged.

Safety Instruction Guide for WILSON STAINLESS SEATER CAP AND STEMS L.E. WILSON SS BULLET SEATING DRIFT ASSEMBLY 30 CAL

Introduction

Thank you for choosing the WILSON STAINLESS SEATER CAP AND STEMS L.E. WILSON SS BULLET SEATING DRIFT ASSEMBLY 30 CAL. This product is designed for benchrest shooters and offers precise bullet and cartridge case alignment. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- **Product Safety:** Always ensure that you handle the bullet seater with care. Follow all operational guidelines to avoid any potential risks associated with improper use.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices related to this product. Ensure you register your purchase if applicable.
- **Online Shopping:** When purchasing online, ensure that you are buying from reputable suppliers who comply with safety standards.
- **Special Consumer Focus:** Keep this product out of reach of children and ensure that only individuals knowledgeable about ammunition handling use it.
- **EU Contact Point:** For any safety inquiries, consult the relevant EU-based contact points.
- **Rapid Alerts:** Regularly check the EU's Safety Gate platform for updates on product safety.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Improper use may lead to misalignment of bullets and cartridge cases, potentially causing malfunctions.
 - Always check for any visible damage to the product before use.
- **Avoiding Hazards:**
 - Ensure that the seating stem is properly fitted before attempting to seat bullets.
 - Do not force the bullet into the case; this could lead to damage or injury.
 - Always use the product in a well-ventilated area, away from flammable materials.
- **Age-Specific Warnings:**
 - This product is intended for use by adults who are knowledgeable about ammunition and reloading processes.
 - Do not allow children or inexperienced individuals to handle this product.

Instructions for Installation and Usage

- **Installation:**
 1. Remove the seater cap and stem from the packaging.
 2. Ensure that the bullet seater is clean and free of debris.
 3. Attach the seating stem to the bullet seater by aligning it properly and securing it in place.
- **Usage:**

1. Place the cartridge case into the die.
2. Position the bullet on top of the cartridge case.
3. Slowly lower the seating stem until it makes contact with the bullet.
4. Apply steady pressure to push the bullet into the cartridge case until it reaches the desired depth.
5. Inspect the completed cartridge for proper seating and alignment.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the product is no longer in use or damaged, consult local waste management guidelines for proper disposal methods. Do not dispose of it in regular household waste.
