

WILSON STAINLESS SEATER CAP AND STEMS - L.E. WILSON SS BULLET SEATING DRIFT ASSEMBLY 6MM

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a closefitting seating stem. This style of bullet seater works more accurately than a conventional 7/8"-14 bullet seating die. This Seater Cap and Stem are the same as what's supplied with the Chamber Type Bullet Seater Dies from Wilson. Great to have on hand in case your factory cap and stem should become lost or damaged.

WILSON STAINLESS SEATER CAP AND STEMS L.E. WILSON SS BULLET SEATING DRIFT ASSEMBLY 6MM Safety Instruction Guide

Introduction

Thank you for choosing the Wilson Stainless Seater Cap and Stems. This product is designed for use with the Wilson Chamber Type Bullet Seater. It is essential to follow safety guidelines to ensure safe operation and to maximize the performance of your equipment. This guide provides important safety information, installation instructions, and proper usage practices.

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure the product is suitable for your specific caliber (243/6 mm).
- Store the product in a cool, dry place away from children and pets.
- Inspect the product for any damage or wear before use. Do not use if damaged.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Keep up to date with recall information through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Use only with compatible Wilson Chamber Type Bullet Seater Dies.
- Ensure that the bullet and cartridge case are correctly aligned before seating.
- Avoid excessive force when seating bullets to prevent damage to the die or bullet.
- Wear appropriate safety gear, such as safety glasses, when reloading.
- Keep hands clear of the die during operation to avoid injury.
- Do not attempt to modify or alter the product in any way.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components, including the Wilson Stainless Seater Cap and Stems.
- Ensure your workspace is clean and welllit.

2. Installation:

- Remove the existing cap and stem from your Wilson Chamber Type Bullet Seater.
- Align the new Stainless Seater Cap and Stem with the die.
- Securely attach the cap and stem, ensuring they are properly seated.

3. Usage:

- Insert the cartridge case into the die.
- Place the bullet on top of the cartridge case.
- Using a closefitting seating stem, gently push the bullet into the case.
- Ensure that the bullet is seated straight and at the desired depth.
- Repeat the process for additional cartridges.

4. PostUsage:

- Clean the die and components after use to remove any residue.
- Store the product in its original packaging or a designated safe location.

Disposal Instructions

- Dispose of any damaged components in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not discard the product in regular household waste if it is damaged or nonfunctional.

Contact Information for Further Support

For any questions or concerns regarding the Wilson Stainless Seater Cap and Stems, please refer to the manufacturer's website or customer service resources for assistance.

By following these guidelines, you can ensure a safe and effective reloading experience with your Wilson Stainless Seater Cap and Stems. Thank you for your attention to safety and compliance.
