

WILSON CASE GAGE - L.E. WILSON 300 AAC BLACKOUT CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper headspace, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder. SPECIAL ORDER CASE GAGES ARE AVAILABLE---MEASURE CASE LENGTH ONLY

Attributes

- Name: [L.E. WILSON 300 AAC BLACKOUT CASE GAGE](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749058025

WILSON CASE GAGE L.E. WILSON 300 AAC BLACKOUT CASE GAGE Safety Instruction Guide

Introduction

Thank you for choosing the WILSON CASE GAGE L.E. WILSON 300 AAC BLACKOUT CASE GAGE. This guide provides essential safety instructions and usage guidelines to ensure your safety and the effective operation of this product. Please read this guide carefully before use.

General Safety Guidelines

- Always handle the case gage with care to avoid injury.
- Ensure that the gage is used in a welllit and organized workspace.
- Keep the gage out of reach of children and vulnerable individuals.
- Regularly inspect the gage for any signs of damage or wear before use.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Use the case gage only for its intended purpose: measuring cartridge cases for reloading.
- Avoid using excessive force when measuring; this can lead to inaccurate readings or damage to the gage.
- Always follow the manufacturer's instructions for setting up and using the gage.
- Be cautious when measuring hot or recently fired cartridges; they may cause burns.
- If you are unsure about any aspect of using the gage, seek assistance from a knowledgeable individual.

Instructions for Installation and Usage

1. Setting Up the Gage

- Ensure the gage is clean and free of debris.
- Place the gage on a flat, stable surface.

2. Using the Regular Style Gage

- Insert the cartridge case into the gage.
- Check the overall length to determine if trimming is necessary.
- Measure the datum to head length to confirm correct headspace.

3. Using the Adjustable Style Gage

- For belted magnum cartridges, ensure the belt is properly positioned in the gage.
- Measure the case to ensure it meets the required specifications.
- Minimize resizing at the shoulder to extend the life of the case.

4. PostUse Care

- Clean the gage after each use to maintain accuracy and longevity.
- Store the gage in a safe place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of the case gage in accordance with local regulations.
- If the gage is damaged beyond repair, ensure it is disposed of in a manner that does not pose a risk to

the environment or public safety.

Contact Information for Further Support

For any queries or concerns regarding the WILSON CASE GAGE L.E. WILSON 300 AAC BLACKOUT CASE GAGE, please refer to the manufacturer's contact information provided in the product packaging or documentation.

By following these safety instructions, you can ensure a safe and effective experience with your WILSON CASE GAGE. Thank you for your attention to safety and compliance.
