

# CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 6.5MM CREEDMOOR BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

## Attributes

# Safety Instruction Guide for CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 6.5MM CREEDMOOR BULLET SEATING DIE

## Introduction

Thank you for choosing the L.E. Wilson 6.5mm Creedmoor Bullet Seating Die. This product is designed for precision bullet seating, ensuring optimal performance for benchrest shooters. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always handle the bullet seater die with care and in a safe environment.
- Ensure that you are familiar with the reloading process and follow all safety protocols.
- Keep the die and all reloading components out of reach of children and unauthorized persons.
- Inspect the die regularly for any signs of wear or damage before use.
- Store the die in a dry, cool place to prevent corrosion and damage.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Use only the recommended cartridge type (6.5 Creedmoor) with this bullet seating die.
- Always wear appropriate safety gear, such as safety glasses and hearing protection, when reloading.
- Ensure that the workspace is welllit and free from distractions.
- Do not exceed the recommended load specifications for the cartridges you are reloading.
- Avoid using the die if you are under the influence of drugs or alcohol.
- Do not attempt to modify the die or use it for any purpose other than its intended use.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Remove any previous dies from the press.
- Carefully screw the L.E. Wilson 6.5mm Creedmoor Bullet Seating Die into the press until it is snug but not overly tight.
- Adjust the die to the desired height for bullet seating.

### 2. Usage:

- Prepare your cartridge cases by ensuring they are clean and free of debris.
- Place a bullet into the die's seating stem.
- Insert the cartridge case into the die, ensuring it is properly aligned.
- Slowly lower the seating stem to push the bullet into the case. Ensure that the bullet is seated straight.
- Check the overall length of the cartridge after seating to ensure it meets your specifications.
- Repeat the process for the remaining cartridges.

## Disposal Instructions

- Dispose of any damaged or worn components responsibly, following local regulations for hazardous materials.

- Recycle packaging materials where possible to minimize environmental impact.
- Do not dispose of reloading materials or components in regular household waste.

## Contact Information for Further Support

For any inquiries or support regarding the L.E. Wilson 6.5mm Creedmoor Bullet Seating Die, please contact the manufacturer or your local distributor. Ensure you have the product details and any relevant information ready for a more efficient response.

By following these safety instructions, you can ensure a safe and effective reloading experience with your L.E. Wilson 6.5mm Creedmoor Bullet Seating Die. Thank you for your attention to safety and for choosing our product. Happy reloading!
