

# CHAMBER TYPE BULLET SEATER DIES - L.E. WILSON 7MM REMINGTON SAUM BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8 inch to 14 bullet seating die. This is one of the most accurate bullet seaters ever made!

## Attributes

# **Safety Instructions for CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 7MM REMINGTON SAUM BULLET SEATING DIE**

## **Introduction**

Thank you for choosing the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 7MM REMINGTON SAUM BULLET SEATING DIE. This product is designed for precision bullet seating and is favored by benchrest shooters for its accuracy and ease of use. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

## **General Safety Guidelines**

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling ammunition components.
- Keep the work area clean and organized to prevent accidents.
- Store the die and other reloading components in a secure location, away from children and unauthorized users.
- Regularly inspect the die for any signs of wear or damage before each use.
- Be aware of your surroundings and ensure that you are in a safe environment while reloading ammunition.

## **Specific Safety Precautions for Use**

- Always ensure that the bullet seating die is correctly installed in the reloading press before use.
- Do not exceed the maximum cartridge specifications as outlined in the reloading manual.
- Use only compatible cartridges and bullets with this die to avoid malfunctions or accidents.
- Never attempt to modify or repair the die, as this may compromise safety and performance.
- Always follow the recommended procedures for bullet seating to ensure proper alignment and minimize the risk of injury.

## **Instructions for Installation and Usage**

### **1. Installation**

- Ensure the reloading press is turned off and unplugged before installation.
- Securely attach the bullet seating die to the reloading press according to the manufacturer's instructions.
- Adjust the seating depth as required for the specific bullet being used.

### **2. Usage**

- Prepare the cartridge cases by cleaning and inspecting them for defects.
- Insert the bullet into the case mouth and position it under the die.
- Activate the reloading press to push the bullet into the case, ensuring that the bullet is seated straight.
- Inspect the finished cartridge for proper seating depth and alignment.

## **Disposal Instructions**

- Follow local regulations for the disposal of any unused ammunition components and packaging materials.
- Do not dispose of any reloading components in a manner that may pose a risk to the environment or public safety.
- Consider recycling materials where possible.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 7MM REMINGTON SAUM BULLET SEATING DIE, please refer to the manufacturer's contact details provided with the product.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective reloading experience with the CHAMBER TYPE BULLET SEATER DIES L.E. WILSON 7MM REMINGTON SAUM BULLET SEATING DIE. For any concerns or questions regarding safety, please do not hesitate to seek further information. Stay safe and enjoy your reloading activities!
