L.E. Wilson Micrometer Top Bullet Seater Die Safety Instruction Guide

Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Die. This product is designed to provide reloaders with precise bulletseating capabilities. To ensure your safety and the effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate personal protective equipment, including safety glasses and gloves, when using the bullet seater die.
- Keep the die and all related components out of reach of children and unauthorized users.
- Regularly inspect the die for any signs of damage or wear before each use.
- If you encounter any issues or have concerns about the product, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Potential for injury if used improperly.
- Risk of damage to the die if not maintained correctly.

- **Avoiding Hazards:**

- Always ensure that the die is securely attached to the Arbor Press before use.
- Do not exceed recommended bulletseating depths, as this may lead to dangerous ammunition.
- Do not use the die with incompatible cartridges; this product is specifically designed for 6 mm Dasher cartridges.

- **Age and Audience Warnings:**

- This product is intended for use by individuals who are knowledgeable in reloading and handling ammunition.
- Keep away from children and individuals who are not trained in ammunition reloading.

Instructions for Installation and Usage

- **Installation:**

1. Ensure that the Arbor Press is on a stable surface and properly secured.
2. Attach the L.E. Wilson Micrometer Top Bullet Seater Die to the Arbor Press following the manufacturer's instructions.
3. Make sure that the die is tightened securely to prevent any movement during use.

- **Usage:**

1. Set the desired bulletseating depth using the micrometer scale, ensuring adjustments are made in 0.001" increments.
2. Insert the bullet into the die and place the cartridge case in position.

3. Slowly operate the Arbor Press to seat the bullet into the cartridge case.
4. After seating, check the bullet depth with a caliper to ensure accuracy.
5. Repeat the process for additional cartridges as needed.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for specific recycling or disposal guidelines for metal products in your area.

Contact Information for Further Support

For any inquiries or support related to the L.E. Wilson Micrometer Top Bullet Seater Die, please contact the manufacturer directly. Ensure that you have the product information ready for the most effective assistance.

Thank you for following these safety instructions. Your adherence to these guidelines will help ensure a safe and effective reloading experience with the L.E. Wilson Micrometer Top Bullet Seater Die.
