# Safety Instruction Guide for L.E. Wilson VLD Bullet Seater Stems

## Introduction

Thank you for choosing the L.E. Wilson VLD Bullet Seater Stems. This product is designed to enhance your reloading experience by providing better seating for VLDstyle bullets. To ensure safe and effective use, please read this safety instruction guide carefully. It covers essential safety guidelines, precautions, and instructions for installation and usage.

## General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before using this product.
- Always wear appropriate safety gear, such as safety glasses and hearing protection, when reloading.
- Store all reloading components, including bullets, primers, and powders, in a secure location away from children and unauthorized users.
- Regularly inspect your reloading equipment for signs of wear or damage before use.
- Follow all local laws and regulations regarding the reloading of ammunition.

## Specific Safety Precautions for Use

- Use the L.E. Wilson VLD Bullet Seater Stems only with compatible L.E. Wilson Chamber Type Bullet Seater Dies.
- Avoid exceeding the recommended load limits for your reloading components.
- Do not modify the bullet seating stem or any associated equipment.
- Keep your work area clean and organized to prevent accidents.
- Be mindful of the potential hazards associated with handling ammunition components, including lead exposure and chemical fumes.
- If you experience any issues during reloading, stop immediately and consult the product manual or seek professional advice.

## Instructions for Installation and Usage

### Installation

#### 1. Remove the Existing Seating Stem:

- Loosen the locking mechanism on your L.E. Wilson Chamber Type Bullet Seater Die.
- Carefully remove the existing seating stem from the die.

#### 2. Install the New VLD Seating Stem:

- Insert the L.E. Wilson VLD Seating Stem into the die.
- Tighten the locking mechanism securely to hold the stem in place.

#### 3. Adjust the Stem Height:

- Set the desired seating depth by adjusting the height of the seating stem.
- Ensure the adjustment is secure before proceeding.

### Usage

#### 1. Prepare Your Reloading Components:

- Gather all necessary components, including cases, bullets, primers, and powder.
- Ensure that all components are compatible with the 22 Caliber specifications.

## 2. Seating the Bullets:

- Place a prepared case into the bullet seater die.
- Insert a VLDstyle bullet into the case mouth.
- Pull the handle of the reloading press to seat the bullet to the desired depth.
- Inspect the seated bullet for proper alignment and depth.

## 3. Repeat the Process:

- Continue the reloading process for additional cases, maintaining careful attention to safety and consistency.

## Disposal Instructions

- Dispose of any damaged or unusable components according to local regulations.
- Do not throw away reloading components in regular household waste.
- Check with local authorities for guidelines on the disposal of hazardous materials.

## Contact Information for Further Support

For any questions or concerns regarding the L.E. Wilson VLD Bullet Seater Stems, please refer to the product manual or contact the manufacturer directly. Ensure that you have the product details available for efficient assistance.

By following these safety instructions, you can help ensure a safe and effective reloading experience with your L.E. Wilson VLD Bullet Seater Stems. Always prioritize safety and compliance with local regulations. Thank you for your attention to these important guidelines.
