

5.56X45MM NATO BRASS - STARLINE 5.56X45MM NATO BRASS 100/BAG

[Reloading](#) > [Brass](#) > [Rifle Brass](#)

The 5.56x45mm NATO is the military version of the .223 Remington, which is one of the most widely used centerfire cartridges today. Starline's 5.56x45mm brass is identical to Starline's .223 Remington brass except for a slight change in the metallurgy making it harder at the base of the case. When loaded at .223 Remington pressures, Starline's .223 brass is safe to use in any firearm chambered for .223 or 5.56x45mm. If loaded to 5.56 pressures, you need to use firearms labeled for use with 5.56mm. It can be unsafe to fire 5.56mm ammunition in firearms with a .223 Remington chamber.

Attributes

- Name: [STARLINE 5.56X45MM NATO BRASS 100/BAG](#)
- Manufacturer: [STARLINE](#)
- Product no.: 749100019

Safety Instruction Guide for 5.56X45MM NATO Brass Starline

Introduction

Thank you for choosing the 5.56X45MM NATO Brass by Starline. This product is designed for use in firearms chambered for .223 Remington or 5.56x45mm. It is important to follow safety guidelines to ensure safe handling and usage of this ammunition. This guide outlines essential safety instructions and best practices to ensure your safety and the safety of others.

General Safety Guidelines

- Always treat all firearms and ammunition as if they are loaded.
- Store ammunition in a cool, dry place, away from direct sunlight and moisture.
- Keep ammunition out of reach of children and unauthorized users.
- Inspect ammunition for damage before use. Do not use damaged or corroded cartridges.
- Follow all local laws and regulations regarding the storage and use of ammunition.
- Always wear appropriate eye and hearing protection when handling or firing firearms.

Specific Safety Precautions for Use

- Ensure that your firearm is designed to handle 5.56mm ammunition. Using this ammunition in a .223 Remington chamber may be unsafe.
- If loaded to 5.56 pressures, only use firearms labeled for 5.56mm.
- Avoid mixing .223 Remington and 5.56mm ammunition in the same firearm.
- Be aware that firing 5.56mm ammunition in firearms not rated for it can lead to serious injury or damage to the firearm.
- Follow the manufacturer's guidelines for your specific firearm regarding the use of 5.56mm ammunition.

Instructions for Installation and Usage

• Installation:

- Ensure the firearm is unloaded before handling any ammunition.
- Insert the brass cartridge into the magazine according to the manufacturer's instructions.
- Load the magazine into the firearm securely.

• Usage:

- Always follow safe handling practices when loading and unloading your firearm.
- Ensure the firearm is pointed in a safe direction when loading and firing.
- Use the appropriate shooting stance and grip to maintain control of the firearm.
- After firing, check the firearm for any malfunctions or obstructions before reloading.

Disposal Instructions

- Dispose of used brass cartridges in accordance with local regulations.
- Do not dispose of ammunition in regular trash. Check with local authorities for proper disposal methods.
- If you have any unused or improperly stored ammunition, contact a local firearms dealer or authority for safe disposal options.

Contact Information for Further Support

For any safety inquiries or concerns regarding the 5.56X45MM NATO Brass, please consult your local firearms dealer or relevant authority. It is important to stay informed about product safety updates and recalls.

Conclusion

Your safety is our priority. By following these guidelines and instructions, you can ensure a safe and enjoyable experience with your 5.56X45MM NATO Brass ammunition. Always stay informed about safety practices and be vigilant when handling firearms and ammunition. Thank you for your attention to these important safety measures.
