

308 WINCHESTER MATCH BRASS - STARLINE 308 WIN MATCH BRASS 100/BAG

[Reloading](#) > [Brass](#) > [Rifle Brass](#)

The .308 Match is our small primer version of the .308 Winchester case. Many competitive shooters prefer the consistent velocities produced by small rifle primers. Like all of our other small primer rifle cases, we utilize our standard .080" flash hole diameter, as we feel it gives better ignition with slower burning and harder to ignite powders, making it more user friendly than many of the small primer/small flash hole versions of this caliber*. *As with all types of cases this large with small primer pockets, it will require care in powder and primer selection in cooler temperatures to prevent hang fires. Single-based propellants are generally easier to ignite and a quality primer such as the Remington 7 1/2 BR are recommended.

Attributes

- Name: [STARLINE 308 WIN MATCH BRASS 100/BAG](#)
- Manufacturer: [STARLINE](#)
- Product no.: 749100021
- Mfr. No.: 2490100BAG
- Cartridge: 308 Winchester
- Rounds: 100
- Quantity: 100
- Delivery weight: 1.134kg
- Shipping height: 25mm
- Shipping width: 152mm
- Shipping length: 305mm

Safety Instruction Guide for 308 Winchester Match Brass

Introduction

Thank you for choosing the 308 Winchester Match Brass from Starline. This document provides important safety guidelines and instructions to ensure the safe and effective use of this product. Please read all sections carefully before use.

General Safety Guidelines

- Ensure that you are of legal age to purchase and use ammunition components in your country.
- Always handle brass and ammunition components with care, following safe handling practices.
- Store brass in a cool, dry place, away from direct sunlight and moisture.
- Keep brass and all reloading components out of reach of children and unauthorized individuals.
- Be aware of local laws and regulations regarding the use and storage of ammunition components.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Improper handling or storage of brass can lead to accidents or injuries.
 - Using incorrect primers or powders may cause malfunctions or dangerous situations.
- **Avoiding Hazards:**
 - Always use the recommended Remington 7 1/2 BR primer for optimal performance.
 - When reloading, ensure that you are using the correct powder type and charge as specified in reliable reloading manuals.
 - Inspect brass for signs of damage or wear before each use. Do not use damaged brass.
 - Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when reloading.

Instructions for Installation and Usage

- **Reloading Instructions:**
 - Ensure your workspace is clean and organized before starting the reloading process.
 - Carefully follow the instructions provided in reputable reloading manuals for the .308 Winchester cartridge.
 - Pay attention to the primer pocket size and ensure compatibility with your chosen primer.
 - Use a reliable powder scale to measure powder charges accurately.
 - After reloading, inspect each cartridge for proper assembly and function.
- **Testing and Firing:**
 - Conduct a function test at a controlled shooting range, following all safety protocols.
 - Always be aware of your surroundings and ensure that the area is safe for shooting.
 - If you experience any malfunctions, cease firing immediately and inspect the firearm and ammunition.

Disposal Instructions

- Dispose of any damaged or unusable brass in accordance with local regulations.
- Do not discard brass in regular household waste; check for recycling options in your area.
- Ensure that all spent primers and powder residues are handled according to hazardous waste guidelines.

Contact Information for Further Support

For any safety inquiries or concerns, please reach out to the designated EU contact point for product safety. Ensure that you keep this guide for future reference.

By following these guidelines, you help ensure a safe and effective experience with your 308 Winchester Match Brass. Always prioritize safety and stay informed about best practices in reloading and ammunition handling. Thank you for your attention to these important safety instructions.
