

PROOF POSITIVE PIERCE STYLE JAGS - BORE TECH 338 CALIBER PROOF POSITIVE RIFLE JAG

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Jags](#)

Want proof your barrel is clean? Unlike traditional brass jags that can give a "false positive" when testing barrels for copper fouling, Bore Tech makes a proprietary heavy-duty alloy jag that has excellent tensile strength and features a special coating that seals the jag to protect it against harsh chemicals and makes it 100% barrel safe. Eliminating brass with a Proof-Positive Jag will not only give you a cleaner rifle bore, but you'll save time and money by cutting back on wasted patches and chemicals. Proof-Positive Jags are precision machined to strict tolerances to provide true, concentric pressure on barrel surfaces. Get the best cleaning results by using Proof-Positive Jags with Bore Tech's Bore Stix.

Attributes

- Name: [BORE TECH 338 CALIBER PROOF POSITIVE RIFLE JAG](#)

Safety Instruction Guide for PROOF POSITIVE PIERCE STYLE JAGS

Introduction

Thank you for choosing the PROOF POSITIVE PIERCE STYLE JAGS BORE TECH 338 CALIBER PROOF POSITIVE RIFLE JAG. This guide provides essential safety instructions to ensure safe usage and optimal performance of the product. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that you are using the product in a safe environment, free from distractions.
- Always wear appropriate safety gear, including eye protection, when cleaning firearms.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for any signs of wear or damage to the jag before use.
- Follow all local laws and regulations regarding the cleaning and maintenance of firearms.

Specific Safety Precautions for Use

- **Chemical Safety:** The jag is designed to withstand harsh chemicals. However, always handle cleaning solvents in a wellventilated area and follow the manufacturer's instructions for any chemicals used.
- **Proper Handling:** Use the jag only for its intended purpose. Do not use excessive force when inserting or removing the jag from the barrel.
- **Inspection:** Before each use, inspect the jag for any signs of damage, such as cracks or deformities. Do not use a damaged jag.
- **Storage:** Store the jag in a dry place, away from direct sunlight and extreme temperatures, to prevent deterioration.

Instructions for Installation and Usage

1. **Preparation:** Ensure your firearm is unloaded and in a safe condition before beginning the cleaning process.
2. **Attach the Jag:**
 - Select the appropriate jag for your caliber (in this case, 338 Caliber).
 - Securely attach the jag to the cleaning rod according to the manufacturer's instructions.
3. **Apply Cleaning Solution:**
 - Apply the recommended cleaning solvent to a patch or directly to the jag.
4. **Insert the Jag:**
 - Carefully insert the jag into the barrel, ensuring it is aligned properly.
 - Use a gentle, consistent motion to push the jag through the barrel.
5. **Pulling the Jag Back:**
 - After reaching the end of the barrel, pull the jag back slowly to avoid any damage.
6. **Repeat as Necessary:**
 - Repeat the process until the desired level of cleanliness is achieved.
7. **Final Inspection:**
 - After cleaning, inspect the barrel to ensure it is free from debris and solvent residue.

Disposal Instructions

- Dispose of used cleaning patches and chemicals according to local regulations.
- Do not dispose of any product components in regular household waste.
- Check for local hazardous waste disposal facilities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance, please contact your local distributor or refer to the product packaging for more information.

By following these safety instructions, you can ensure a safe and effective cleaning process with your PROOF POSITIVE PIERCE STYLE JAGS BORE TECH 338 CALIBER PROOF POSITIVE RIFLE JAG. Thank you for your attention to safety.
