

PROOF POSITIVE PIERCE STYLE JAGS - BORE TECH 277 CALIBER PROOF POSITIVE RIFLE JAG

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Jags](#)

Want proof your barrel is clean? Unlike traditional brass jags that can give a "false positive" when testing barrels for copper fouling, Bore Tech makes a proprietary heavy-duty alloy jag that has excellent tensile strength and features a special coating that seals the jag to protect it against harsh chemicals and makes it 100% barrel safe. Eliminating brass with a Proof-Positive Jag will not only give you a cleaner rifle bore, but you'll save time and money by cutting back on wasted patches and chemicals. Proof-Positive Jags are precision machined to strict tolerances to provide true, concentric pressure on barrel surfaces. Get the best cleaning results by using Proof-Positive Jags with Bore Tech's Bore Stix.

Safety Instruction Guide for PROOF POSITIVE PIERCE STYLE JAGS

Introduction

Thank you for choosing the PROOF POSITIVE PIERCE STYLE JAGS BORE TECH 277 CALIBER PROOF POSITIVE RIFLE JAG. This product is designed to help you maintain a clean rifle bore effectively and safely. Please read this safety instruction guide carefully to ensure proper use and to minimize any risks associated with the product.

General Safety Guidelines

- Ensure safe handling and usage of the product at all times.
- Always use the product in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear.
- If you notice any defects or issues, discontinue use immediately and report the problem.
- Stay informed about any product recalls or safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Do not use the jag with excessive force, as this may damage the barrel or the jag itself.
- Avoid using the jag with incompatible calibers or products.
- Handle chemicals and cleaning agents with care, following all safety guidelines provided by the manufacturers.
- Wear appropriate protective gear, such as gloves and safety glasses, when cleaning or maintaining your rifle.
- Store the jag in a safe, dry place when not in use to prevent damage and ensure longevity.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary cleaning supplies, including the Proof Positive Jag and Bore Stix.
- Ensure your rifle is unloaded and in a safe position for cleaning.

2. Installation:

- Attach the Proof Positive Jag securely to your cleaning rod.
- Ensure that the connection is tight to prevent any disconnection during use.

3. Usage:

- Insert the jag into the barrel from the chamber end, ensuring it is aligned correctly.
- Use a forward and backward motion to clean the barrel, applying light pressure.
- Avoid twisting or turning the jag excessively, as this may cause damage.
- After cleaning, remove the jag and inspect for any residue or debris.

4. PostUse:

- Clean the jag with a suitable solvent to remove any residue.
- Store the jag in its designated place, away from moisture and direct sunlight.

Disposal Instructions

- Dispose of any used cleaning patches, chemicals, or materials according to local regulations.
- Do not dispose of the jag in regular household waste.
- Check with local waste management facilities for proper disposal methods for metal and chemical products.

Contact Information for Further Support

For any safety inquiries or concerns regarding the PROOF POSITIVE PIERCE STYLE JAGS, please refer to the manufacturer's contact information provided in the product packaging or on the official website.

By following these safety instructions, you can ensure the effective and safe use of the PROOF POSITIVE PIERCE STYLE JAGS BORE TECH 277 CALIBER PROOF POSITIVE RIFLE JAG. Thank you for prioritizing safety and responsible usage.
