

PROOF POSITIVE NYLON BORE BRUSHES - BORE TECH 6MM NYLON BORE BRUSH 3/PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Snakes](#)

Bore Tech understands the need for premium quality nylon brushes, which is why they have constructed these double wound Proof-Positive Nylon Brushes that feature superior construction and materials. These brushes have twice as many bristles as competing brands to double the scrubbing action and shorten the cleaning process. Features oversized bristles for added strength, and non-brass cores and couplers that prevent the appearance of copper fouling remaining in your bores. The .17 and .20 caliber rifle brushes are 1" shorter in length to reduce the force needed to push the brush through and prevent barrel damage. For best results use Proof-Positive Nylon Brushes with fast acting copper cleaners like Bore Tech's Eliminator and CU+2 Copper Remover.

Attributes

- Name: [BORE TECH 6MM NYLON BORE BRUSH 3/PACK](#)
- Manufacturer: [BORE TECH](#)
- Product no.: 749101650

Safety Instruction Guide for PROOF POSITIVE NYLON BORE BRUSHES

Introduction

Thank you for choosing the PROOF POSITIVE NYLON BORE BRUSHES by Bore Tech. These premium quality brushes are designed to provide superior cleaning for your firearms. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Ensure that all cleaning products used in conjunction with the brushes are safe and suitable for your specific firearm.
- Keep the brushes out of reach of children and pets to prevent accidental injury.
- Always inspect the brushes for damage before use. Do not use if any bristles are missing or if the brush appears worn.
- Follow all local laws and regulations regarding firearm maintenance and cleaning.

Specific Safety Precautions for Use

- Use the brushes only for their intended purpose – cleaning firearm bores.
- Avoid excessive force when pushing the brush through the bore to prevent barrel damage.
- Be cautious of sharp edges on the firearm that may cause injury during cleaning.
- Do not use the brushes with abrasive cleaning agents that may damage the bristles.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is unloaded and in a safe condition before cleaning.
- Gather all necessary cleaning supplies, including the PROOF POSITIVE NYLON BORE BRUSHES and appropriate cleaning solutions.

2. Installation:

- Attach the nylon bore brush to a cleaning rod or handle designed for use with bore brushes.
- Ensure that the brush is securely fastened to prevent it from detaching during use.

3. Usage:

- Insert the brush gently into the bore of the firearm.
- Push the brush through the bore with a steady motion. Avoid excessive force.
- After a few passes, remove the brush and clean it with a suitable solvent if necessary.
- Follow up with a cleaning patch to remove any remaining debris.

4. PostCleaning:

- Inspect the brush for wear and tear after each use.
- Store the brushes in a cool, dry place away from direct sunlight.

Disposal Instructions

- Dispose of any damaged or worn brushes in accordance with local waste disposal regulations.

- Do not dispose of brushes in a manner that could cause harm to the environment or wildlife.

Contact Information for Further Support

For inquiries or concerns regarding safety and usage of the PROOF POSITIVE NYLON BORE BRUSHES, please reach out to your local distributor or manufacturer.

By following these guidelines, you can ensure a safe and effective cleaning experience with your Bore Tech products. Thank you for your attention to these safety instructions.
