

PROOF POSITIVE NYLON BORE BRUSHES - BORE TECH 7MM NYLON BORE BRUSH 3/PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Snakes](#)

Bore Tech understands the need for premium quality nylon brushes, which is why they have constructed these double wound Proof-Positive Nylon Brushes that feature superior construction and materials. These brushes have twice as many bristles as competing brands to double the scrubbing action and shorten the cleaning process. Features oversized bristles for added strength, and non-brass cores and couplers that prevent the appearance of copper fouling remaining in your bores. The .17 and .20 caliber rifle brushes are 1" shorter in length to reduce the force needed to push the brush through and prevent barrel damage. For best results use Proof-Positive Nylon Brushes with fast acting copper cleaners like Bore Tech's Eliminator and CU+2 Copper Remover.

Attributes

- Name: [BORE TECH 7MM NYLON BORE BRUSH 3/PACK](#)
- Manufacturer: [BORE TECH](#)
- Product no.: 749101651
- Mfr. No.: BTNR-07-003

Safety Instruction Guide for PROOF POSITIVE NYLON BORE BRUSHES

Introduction

Thank you for choosing the PROOF POSITIVE NYLON BORE BRUSHES by Bore Tech. This guide provides essential safety information, usage instructions, and disposal guidelines to ensure your safe and effective use of this product. Please read the entire guide carefully before using the bore brushes.

General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Ensure that the bore brushes are suitable for the specific caliber of your firearm.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the bore brushes for any damage or wear before each use.
- Do not use the bore brushes for any purpose other than intended.
- Follow all local laws and regulations regarding firearm cleaning and maintenance.

Specific Safety Precautions for Use

- Use protective eyewear when cleaning firearms to prevent splashes from cleaning solutions.
- Avoid using excessive force when pushing the bore brush through the barrel to prevent damage.
- Ensure that the firearm is unloaded and pointed in a safe direction before starting the cleaning process.
- Use only compatible cleaning solutions with the nylon bore brushes to avoid chemical reactions.
- If you experience any adverse reactions while using cleaning solutions, discontinue use immediately and seek medical advice.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is completely unloaded.
- Gather necessary cleaning supplies: bore brush, cleaning rod, and cleaning solution.

2. Installation:

- Attach the bore brush to the cleaning rod securely.
- Ensure that the brush is properly aligned with the rod for effective cleaning.

3. Usage:

- Apply a small amount of cleaning solution to the bore brush.
- Insert the bore brush into the barrel from the chamber end (if applicable) or muzzle end.
- Gently push the brush through the barrel using a smooth, steady motion.
- Pull the brush back out of the barrel without twisting to avoid damaging the rifling.
- Repeat the process as necessary, using the cleaning solution as needed.
- After cleaning, run a dry patch through the barrel to remove any residual cleaning solution.

4. PostCleaning:

- Clean the bore brush with warm, soapy water and allow it to dry completely before storage.
- Store the bore brushes in a cool, dry place away from direct sunlight.

Disposal Instructions

- Dispose of used bore brushes in accordance with local regulations.
- Do not dispose of the product in regular household waste if it is deemed hazardous.
- Consider recycling options if available for nylon materials.

Contact Information for Further Support

For any safety inquiries or further assistance, please contact the manufacturer directly. Ensure to have the product information ready for reference.

By following these guidelines, you can ensure the safe and effective use of the PROOF POSITIVE NYLON BORE BRUSHES. Thank you for being a responsible user and helping to maintain a safe environment.
