

PROOF POSITIVE NYLON BORE BRUSHES - BORE TECH 20 CALIBER NYLON BORE BRUSH 3/PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Snakes](#)

Bore Tech understands the need for premium quality nylon brushes, which is why they have constructed these double wound Proof-Positive Nylon Brushes that feature superior construction and materials. These brushes have twice as many bristles as competing brands to double the scrubbing action and shorten the cleaning process. Features oversized bristles for added strength, and non-brass cores and couplers that prevent the appearance of copper fouling remaining in your bores. The .17 and .20 caliber rifle brushes are 1" shorter in length to reduce the force needed to push the brush through and prevent barrel damage. For best results use Proof-Positive Nylon Brushes with fast acting copper cleaners like Bore Tech's Eliminator and CU+2 Copper Remover.

Attributes

Safety Instruction Guide for PROOF POSITIVE NYLON BORE BRUSHES

Introduction

Thank you for choosing the PROOF POSITIVE NYLON BORE BRUSHES by Bore Tech. These brushes are designed to provide superior cleaning performance for your firearms. To ensure your safety and the effective use of this product, please follow the guidelines outlined in this safety instruction guide.

General Safety Guidelines

- Always handle firearms and cleaning products with care.
- Ensure that you are in a wellventilated area when using cleaning products.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for updates on product recalls through the EU's Safety Gate platform.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Wear safety goggles and gloves when using the nylon bore brushes and cleaning chemicals to protect against splashes and debris.
- Do not use the brushes on firearms that are loaded. Always ensure your firearm is unloaded before cleaning.
- Avoid excessive force when pushing the brush through the bore to prevent barrel damage.
- Do not use the brushes with cleaning solutions that are not recommended by the manufacturer.
- Inspect the brushes regularly for wear and replace them if the bristles are damaged or worn down.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your firearm is completely unloaded.
- Gather all necessary cleaning supplies, including the nylon bore brush, cleaning solution, and cleaning rod.

2. Using the Bore Brush:

- Attach the nylon bore brush to the cleaning rod securely.
- Apply a small amount of the recommended cleaning solution to the bore brush.
- Insert the brush into the barrel from the chamber end, if possible, to avoid pushing debris further into the barrel.
- Push the brush through the bore gently, using a twisting motion to maximize cleaning effectiveness.
- Pull the brush back out, and repeat the process as necessary until the bore is clean.

3. Final Steps:

- After cleaning, wipe down the bore with a clean patch to remove any remaining cleaning solution and debris.
- Store the brushes in a dry place, away from moisture and direct sunlight.

Disposal Instructions

- Dispose of used nylon bore brushes in accordance with local waste management regulations.
- Do not incinerate or dispose of the brushes in a way that may cause environmental harm.

Contact Information for Further Support

For any questions or concerns regarding the use of the PROOF POSITIVE NYLON BORE BRUSHES, please refer to the manufacturer's contact information provided on the packaging or the official website.

Thank you for adhering to these safety guidelines. Your safety and the effective use of the PROOF POSITIVE NYLON BORE BRUSHES are our top priorities.
