

CASE NECK GAGE W/ INDICATOR - REDDING CASE NECK GAGE WITH INDICATOR

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The Redding Case Neck Gauge provides a quick and accurate way to sort cases by concentricity. Large dial indicator calibrated in increments of .001" allows you to accurately determine case neck uniformity, a requirement for precision reloading. Includes large 3/16" diameter mandrel and small 9/64" diameter mandrel for use with .060" flash holes. A separate pilot stop is required for each caliber - comes with 22 caliber and 30 caliber pilot stops. Stops for other calibers available below. Each pilot stop is CNC machined stainless steel, slightly undercut for a snug fit in the case mouth and smooth accurate indicator readings.

Safety Instructions for Redding Case Neck Gauge with Indicator

Introduction

Thank you for choosing the Redding Case Neck Gauge with Indicator. This product is designed to assist in sorting cases by concentricity, ensuring precision in your reloading activities. To ensure your safety while using this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always handle the gauge with care and store it in a safe place when not in use.
- Ensure that the gauge is used in a welllit and clean environment to avoid accidents.
- Be aware of the potential hazards associated with improper use of the gauge, including inaccurate measurements and potential injury.
- Follow all local regulations regarding the use of reloading tools and equipment.
- Regularly inspect the gauge for any signs of wear or damage before use.

Specific Safety Precautions for Use

- Do not exceed the recommended specifications for the gauge.
- Use the gauge only for its intended purpose; do not modify or alter it in any way.
- Keep the gauge out of reach of children and individuals who may not understand its use.
- Wear appropriate safety gear, such as safety glasses, when using the gauge to protect against debris.
- If you notice any unusual behavior or performance from the gauge, cease use immediately and inspect it for issues.

Instructions for Installation and Usage

1. Preparation:

- Ensure that you have the correct pilot stop for your caliber (22 caliber and 30 caliber pilot stops are included).
- Gather all necessary tools and materials before starting.

2. Setting Up the Gauge:

- Insert the appropriate mandrel into the gauge.
- Ensure that the mandrel fits securely and is aligned properly.

3. Using the Gauge:

- Place the case neck onto the mandrel.
- Gently press down to secure the case in place.
- Observe the dial indicator for readings.
- Record the measurements for your reference.

4. PostUse:

- After using the gauge, clean it with a soft cloth to remove any debris or residue.
- Store the gauge in its original packaging or a suitable case to prevent damage.

Disposal Instructions

- Dispose of the gauge in accordance with local regulations regarding electronic and metal waste.
- Do not dispose of the gauge in regular household waste.
- If the gauge is damaged beyond repair, contact a local recycling service for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or product support, please consult your local distributor or retailer. They can provide you with the necessary assistance regarding your Redding Case Neck Gauge with Indicator.

Thank you for prioritizing safety while using our product. Enjoy your precision reloading experience!
