

NECK SIZING DIES - REDDING NECK SIZING DIE 300 RCM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

Attributes

- Name: [REDDING NECK SIZING DIE 300 RCM](#)

Redding Neck Sizing Die Safety Instruction Guide

Introduction

Thank you for choosing the Redding Neck Sizing Die for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this document carefully before using the die to enhance your reloading experience while adhering to safety regulations.

General Safety Guidelines

- Ensure proper handling and storage of all reloading equipment.
- Always wear appropriate safety gear, including safety glasses, when reloading.
- Keep the work area clean and free of distractions.
- Store reloading components out of reach of children and pets.
- Regularly inspect your equipment for wear and damage.
- Follow all manufacturer instructions and guidelines for use.

Specific Safety Precautions for Use

- Use only with bottleneck cases; do not use with straightwalled cases.
- Ensure that the die is compatible with the specific cartridge you are reloading (300 Ruger Compact Magnum).
- Never interchange fired cases between different rifles; this can lead to unsafe conditions.
- Avoid overtightening the die into the reloading press.
- Always check the die's adjustment before starting the reloading process.
- Do not attempt to modify the die or use it for any purpose other than intended.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is securely mounted and stable.
- Clean the die and press threads before installation.
- Screw the neck sizing die into the press until it is snug. Do not overtighten.
- Adjust the die according to the manufacturer's instructions for the desired neck tension.

2. Usage:

- Inspect the brass cases for any signs of damage or wear before resizing.
- Lubricate the cases lightly to prevent sticking in the die.
- Insert the brass case into the shell holder and raise the ram to engage the die.
- Lower the ram slowly and smoothly to resize the neck of the case.
- Remove the case and inspect it for proper sizing.
- Repeat the process for all cases to be resized, ensuring consistent operation.

Disposal Instructions

- Dispose of any damaged or wornout dies according to local regulations.
- Do not dispose of reloading components in regular household waste.
- Check with local recycling programs for proper disposal methods of metals and chemicals.

Contact Information for Further Support

For any questions or concerns regarding the Redding Neck Sizing Die, please contact the manufacturer or consult the product packaging for additional support resources.

Remember, safety is paramount. Follow these guidelines to ensure a safe and enjoyable reloading experience. Thank you for choosing Redding products.
