

# 5.56X45MM NATO BRASS - STARLINE 5.56X45MM NATO BRASS 500/BAG

[Reloading](#) > [Brass](#) > [Rifle Brass](#)

The 5.56x45mm NATO is the military version of the .223 Remington, which is one of the most widely used centerfire cartridges today. Starline's 5.56x45mm brass is identical to Starline's .223 Remington brass except for a slight change in the metallurgy making it harder at the base of the case. When loaded at .223 Remington pressures, Starline's .223 brass is safe to use in any firearm chambered for .223 or 5.56x45mm. If loaded to 5.56 pressures, you need to use firearms labeled for use with 5.56mm. It can be unsafe to fire 5.56mm ammunition in firearms with a .223 Remington chamber.

## Attributes

- Name: [STARLINE 5.56X45MM NATO BRASS 500/BAG](#)
- Manufacturer: [STARLINE](#)
- Product no.: 749500019
- Mfr. No.: 3440500BAG
- Cartridge: 5.56 x 45
- Rounds: 500
- Quantity: 500
- Delivery weight: 3.425kg
- Shipping height: 152mm
- Shipping width: 152mm
- Shipping length: 229mm

## Item details

Made in USA

US export classification: 0A505.x

# Safety Instruction Guide for 5.56X45MM NATO Brass Starline

## Introduction

Thank you for choosing the 5.56X45MM NATO Brass Starline. This product is designed for use in firearms chambered for .223 Remington or 5.56x45mm. It is crucial to follow safety guidelines to ensure safe handling and usage of this ammunition. This guide provides essential safety instructions and compliance with EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always treat every firearm as if it is loaded.
- Store ammunition in a cool, dry place away from direct sunlight and moisture.
- Keep ammunition out of reach of children and unauthorized individuals.
- Regularly inspect ammunition for signs of damage or corrosion.
- Do not use damaged or corroded ammunition.
- Ensure that firearms are properly maintained and inspected before use.
- Use only ammunition that is specifically labeled for your firearm's caliber.
- Be aware of your surroundings while using firearms and ammunition.

## Specific Safety Precautions for Use

- **Cartridge Identification:** Ensure that you are using 5.56x45mm NATO cartridges in firearms specifically designed for this caliber. Using .223 Remington cartridges in a firearm designed for 5.56mm may be unsafe if loaded to 5.56 pressures.
- **Pressure Levels:** When loading ammunition, be cautious of the pressure levels. Starline's .223 brass is safe for .223 Remington pressures but must not be used in firearms not rated for 5.56 pressures.
- **Firearm Compatibility:** Verify that your firearm is labeled for use with 5.56mm ammunition before firing. Using 5.56mm ammunition in a .223 Remington chamber can be unsafe.
- **Vulnerable Groups:** Keep this product away from children and those who may not understand firearm safety.

## Instructions for Installation and Usage

- **Loading Ammunition:**
  1. Ensure the firearm is unloaded and pointed in a safe direction.
  2. Open the ammunition bag and visually inspect the cartridges for any damage.
  3. Load the cartridges into the magazine according to the firearm's manual.
  4. Do not exceed the maximum load recommended for your firearm.
- **Firing Instructions:**
  1. Always wear appropriate eye and ear protection when firing.
  2. Follow the firearm manufacturer's instructions for operation.
  3. Maintain a stable shooting position and ensure a clear line of sight.
  4. After firing, inspect the firearm and ammunition for any malfunctions.

## Disposal Instructions

- Dispose of unused or damaged ammunition in accordance with local regulations.
- Do not throw ammunition in regular trash. Contact local authorities for proper disposal methods.

- Store any unwanted ammunition securely until it can be disposed of safely.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the 5.56X45MM NATO Brass Starline, please refer to the relevant EU-based contact points or safety authorities.

Remember, safety is paramount when handling firearms and ammunition. Always stay informed and follow best practices for safe usage. Thank you for your attention to these important safety guidelines.
