

REMINGTON 700 REM-SAF SAFETY - RIFLE BASIX REM-SAF SAFETY PARTS

[Rifle Parts](#) > [Safety Parts](#) > [Safeties](#)

Fully Interchangeable With The Factory Safety

Up until these replacement parts became available the only way to repair a damaged or misplaced Remington 700 safety was to send it back to the factory, factory repair center, or make your own; parts were simply not available. With these high-grade aftermarket parts you can easily replace damaged or lost safety parts and know the repair is solid.

Safety Instruction Guide for REMINGTON 700 REMSAF Safety Parts

Introduction

Thank you for choosing REMINGTON 700 REMSAF Safety Parts. These highgrade aftermarket components are designed to help you easily replace damaged or lost safety parts on your Remington 700 rifle. This guide provides essential safety information, installation instructions, and disposal guidelines to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure safe use of all nonfood products, including the REMINGTON 700 REMSAF Safety Parts.
- Be aware of potential hazards associated with improper installation or use.
- Always follow the instructions provided in this guide to minimize risks.
- Regularly check for recall updates on the EU's Safety Gate platform.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Only use REMINGTON 700 REMSAF Safety Parts with compatible models. These parts are not compatible with post2005 triggers.
- Always handle firearms responsibly and in accordance with local laws and regulations.
- Ensure that the rifle is unloaded and pointed in a safe direction before beginning any maintenance or installation.
- Keep all parts out of reach of children and unauthorized users.
- Inspect all components before installation to ensure they are free from defects.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and components, including the safety lever, safety pivot pin, detent ball, triangular spring, and Eclip.
- Ensure that your workspace is clean and welllit.

2. Removing the Old Safety Parts

- Ensure the firearm is unloaded.
- Remove the stock from the rifle to access the safety mechanism.
- Carefully remove the damaged or misplaced safety parts.

3. Installing the New Safety Parts

- Begin by inserting the safety pivot pin into the designated hole.
- Attach the safety lever onto the pivot pin, ensuring it moves freely.
- Place the detent ball and triangular spring into their respective positions.
- Secure the assembly with the Eclip, ensuring all parts are firmly in place.

4. Final Check

- Before reassembling the rifle, test the safety mechanism to ensure it functions correctly.
- Reattach the stock and conduct a final inspection to confirm that all parts are secure.

Disposal Instructions

- Dispose of any old safety parts in accordance with local regulations.
- If the parts are damaged or no longer usable, do not throw them in regular waste. Instead, contact your local waste management facility for proper disposal options.

Contact Information for Further Support

For any inquiries or further assistance regarding the REMINGTON 700 REMSAF Safety Parts, please reach out to your authorized dealer or consult the manufacturer's website for additional resources.

By following these guidelines and instructions, you can ensure the safe and effective use of your REMINGTON 700 REMSAF Safety Parts. Thank you for prioritizing safety and compliance with EU regulations.
