

STOCK INLETTING TOOLS - ROYAL ARMS STOCK TOOLS SET

[Gunsmith Tools](#) > [Stock Work & Finishing](#) > [Stock Making Hand Tools](#) > [Stock Inletting Tools](#)

Removes Thin Cuts Of Wood In Very Tight Places

Use to finish an inletting job where tiny amounts of material must be removed. Great anytime you need to remove precise amounts of wood from tight or curved recesses. Made from 1095 carbon steel, then hardened and heat treated to hold an edge, but still be easy to sharpen. Comfortable handle cuts down on hand fatigue. Chisels cut a thin shaving of wood from around triggerguard or rear tang recesses without chipping or tearing the stock. Scrapers get into tight recesses, remove just the right amount of wood.

Safety Instruction Guide for STOCK INLETTING TOOLS ROYAL ARMS STOCK TOOLS SET

Introduction

Thank you for choosing the STOCK INLETTING TOOLS ROYAL ARMS STOCK TOOLS SET. This guide provides important safety information and instructions to ensure the safe and effective use of the tools. Please read this guide carefully before using the product.

General Safety Guidelines

- Always use the tools as intended to avoid accidents and injuries.
- Keep the tools out of reach of children and vulnerable individuals.
- Inspect the tools for any damage before use. Do not use damaged tools.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the tools.
- Ensure your work area is clean, welllit, and free from hazards.
- Follow all local regulations and guidelines regarding tool safety and usage.

Specific Safety Precautions for Use

- **Handling Tools:** Always handle the tools with care. Use the handles provided and avoid placing fingers near cutting edges.
- **Cutting Precautions:** When using chisels or scrapers, ensure your hands are positioned safely to prevent injury. Cut away from your body.
- **Wood Removal:** Remove small amounts of wood gradually. Avoid excessive force to prevent slipping or breaking the tool.
- **Storage:** Store the tools in a dry place, away from moisture, to prevent rust. Keep them in a protective case or holder when not in use.
- **Sharpening:** If sharpening is necessary, follow the manufacturer's recommendations. Use appropriate sharpening tools and techniques to maintain safety.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting your project.
- Ensure that the area is clear and organized.

2. Using Chisels:

- Select the appropriate chisel for your task (right or lefthand cut).
- Position the chisel at the desired angle and apply light pressure to begin cutting.
- Gradually increase pressure as needed, ensuring control over the tool.

3. Using Scrapers:

- Choose the correct scraper based on the width required for your project.
- Insert the scraper into the tight recess and apply even pressure to remove wood.
- Work slowly and check your progress frequently to avoid overremoval.

4. Finishing:

- After completing your inletting job, clean the tools with a dry cloth to remove any wood shavings or debris.
- Store the tools properly to maintain their condition.

Disposal Instructions

- Dispose of any damaged tools in accordance with local regulations.
- Recycle materials where possible, especially metal and wood components.
- Do not dispose of tools in regular household waste if they can be recycled or reused.

Contact Information for Further Support

For safety inquiries or further assistance regarding the STOCK INLETING TOOLS ROYAL ARMS STOCK TOOLS SET, please refer to the manufacturer's contact point or website.

Thank you for your attention to these safety guidelines. Enjoy your toolset responsibly!
